TWP Mountain Lake

GEN
LOG

Island Mountain Lake

Description &
Name Origin

Located in former Mountain Lake it rose with steep shores & nearly flat top about 40 feet above the lake. The upper part of the island was covered with trees, which could be seen for many miles this spot served as

a landmark and a guide for many of the
early settlers.

Description & Name Origin This county established May 23, 1857, organized July 29, 1870, derived its name from the Cottonwood river, which touches the northeast corner of Germantown in this county, and to which its northwest townships send their drainage by several small streams flowing northward. It is a translation of Waraju, the Dakota or Sioux name, noted by Keating and by Nicollet's report and map. Keating wrote that the river was so named "From the abundance of this tree on its banks," and Nicollet stated that the most important village of the Sisseton Sioux was on its north bank near its junction with the Minnesota river. The cottonwood, also called the necklace poplar, is a fast-growing tall tree, common or frequent thru the south half of this state and along the Red River valley, but reaches its northeastern limit on the headwaters of the St. Croix and the Mississippi. It is

12: NAME COTTONWOOD CO COTTONWOOD 2

(page)

extensively planted for shade, as a shelter from winds, and for fuel; but at its time of shedding the seed from its tassels, which is in the spring, "the cotton from the seeds proves a source of much annoyance to the tody housewife."

The Canadian French traders and voyageurs gave to the cottonwood the name Liard, meaning a farthing, perhaps in allusion to the nearly worthless quality of its lumber for constructive purposes. Their translation of this Dakota name was "Riviere aux Liards," as recorded by Keating in 1823. In the journal of the younger Alexander Henry, published in 1897, as edited by Dr. Elliot Coues, Henry wrote in 1803-04 of another Riviere aux Liards, a tributary of Red Lake river, probably the Clearwater river, which also has given its name to a county in Minnesota.

LOC SETTLED -----

PLAT ----- INCORP -----

Description &
Name Origin

Was named by A. G. Doule once of the State of Maine, in 1870, from his farm. When first named he called it "Twin Mountain Lake" and when asked why this name, he replied, because there is neither mountain nor lake within a hundred miles. When he discovered the nearby lake, he found an elevation on a small island
(over)

in the land, and changed the name of his farm to the present form, and the name of the village followed that.
