Description & Name Origin In the Sioux language, 'mini' means water and 'sotah' means reflecting white fleecy clouds. Minnesota is generally called 'the North-Star State, also 'the Gopher State'. Writers, at times, refer to it as 'the State of Ten Thousand Lakes,' because it originally had that many lakes. It is also called 'the' Moccasin

(over)

State', from the officially adopted state flower. One writer calls Minnesota 'the Hub' from its location in the center of the North American continent. At the Pan-American Exposition, Minnesota was called 'the Bread and Butter State'. Admirers of H. W. Longfellow love to call Minnesota 'the Pipe-Stone Quarry State', also 'the Home of Minnehaha'. More recent poets refer to Minnesota as 'the Land of Laughing Waters', 'the Hunter's and Fisherman's Paradise', 'the Birth-Place of the Father of Waters', 'the Garden Spot of the World', the Land of God's Brightest Smile'.

1/30/41 Jay Aberwald

NAME Scott county Co Scott

Form No. Classification Ref O'Neill's History of Minn. Valley - p294-5 (page)

By act of territorial legislature at the session of 1853, the county of Scott was established and bounded as follows: beginning at the north-east corner of township 112 north, range 21 west of the fifth meridian; thence west on the township line between townships 112 and 113 to the middle of the main channel of the Minnesota river; thence down said channel to the mouth of Credit river; thence in a direct line to the place of beginning.

By an act of legislature passed May 23, 1857, describing the corporate limits of Shakopee, that part of section one lying north of the river was detached from Carver and became part of Scott county.

A subsequent change was made March 6th, 1871, when the present boundary between this and Dakota county was established. The proposition was submitted to the people at the next annual election, and ratified by vote, and a subsequent act empowered the registers ~~of~~ in each county to transcribe the records pertaining to land affected, from the books of the other.

. . . The first regular meeting of the board was held July 4th, 1853, at Holmes' store, Shakopee . . . .

The first mill in the county was built at Jordan in 1853.

The first post-office was established December 10th, 1853, at Shakopee.

(over)

October 19 and 20, 1853, the Sioux, in accordance with the treaty signed by their chiefs at Traverse des Sioux in July, 1851, and Mendota in August of the same year, confirmed at Washington about a year later, broke up their homes and bade farewell to the valley. The settlers describe it as a sad sight to see the long lines taking their departure. Several other bands had joined the Sakopee [sic] band and now the total number amounting to over 2,000 set out for their unknown home. They were silent, and by the actions showed the sadness that they felt and expressed at leaving their ~~xxxxxx~~ ancient haunts.

A few days before their departure Governor Gorman came to Sakopee [sic] with $30,000 to pay the Indians on their lands according to the terms of the treaty, and exhibited to them the purpose of the government to fulfill all promises made, and at the same time made some advances to hasten and encourage their departure.

GEN LOC _____

EXACT SITE _____ T _____ R _____ TWP _____

Description & Name Origin "The settlement of Scott county must bear the date 1851 as the starting point, and begin with the advent of Thomas A. Holmes at Shakopee in the spring of that year. And yet Mr. Holmes found several families on the ground at the time of his arrival, to whom we refer before giving the details of his arrival and the history of the settlement that followed. Four families were here living among the Indians. These were Rev. S.W. Pond and family, the old missionary to the Sioux; Hazen Mooers and family, Indian farmer employed by the government; John Mooers, a son of Hazen Mooers by an Indian wife, who with his own wife lived in the same house with his father; Olivier Faribault, an Indian trader, and his family. . . . Passing over the intervening years, we find S.W. Pond, in 1847, located as missionary to the Shakopee band of Dakotas living where we find him to-day, a mile from Shakopee city, in the township of Eagle

(over)

Creek. Here in his own house he preached to the Indians in their native language, and gathered the children in the missionary school. This school was established in 1848, with Miss Cunningham as teacher. . . .

" Hazen Mooers, who was Indian farmer, antedated Mr. Pond by more than twenty years' residence in the North-west. He came from the state of New York soon after the war of 1812, and had lived among the Indians ever since. . ... He had lived at what is now Shakopee many years before the arrival of Rev. Mr. Pond with an Indian wife and a family of half-breeds. . . .

Olivier Faribault was a quarter-breed, and was a trader, living at the Indian village near where Rev. Mr. Pond and Mooers lived, now the outskirts of Shakopee. He had previously been Indian farmer as well as trader. The Faribaults had formerly had charge of the trading post at Chaska. He had been here some years before the arrival of Mr. Pond. About the time of Mr. Holmes' arrival, David Faribault, a brother of Olivier, arrived, and when the excitement of town building began he attempted a rival town, trying to divert the settlement to his location, which was the old Indian village."

Description & Name Origin Was named in 1853 by Judge Andrew G. Chatfield, one of the Associate Justices of the Supreme Court of the Territory of Minn., from the French word meaning "beautiful field or plain", because this name was descriptive of the place and its surroundings. The Judge was on the bench until 1875.
