► Your regular black & white enlarger

...is perfect for FR's simplified color system. Just slip in the Basic Infra-red filter ...snap on the Universal filter holder supplied in the kit, and your enlarger is converted to a true color enlarger ready to make brilliant FR color prints.

► Your regular trays, thermometer, and timer that you use for black & white

...are all you need for FR Color. That's right! If you're equipped to do black and white enlarging, you probably have all the equipment you need for FR Color—the simplest color process—ever. Even temperature control is far less critical with FR color so your normal Black & White thermometer can serve double duty. And, most important, no refrigeration is required.
