

Startups from the Movin'On Startup Booster program take the stage at the World Summit on Sustainable Mobility

- **From June 1 to 4, 12 startups will take the stage to present their innovations to thousands of sustainable mobility leaders**
- **Since March, these 12 startups have benefited from targeted connections within Movin'On ecosystem**

June 2, 2021 – Movin'On, the world's leading co-innovation ecosystem for sustainable mobility, will feature 12 startups during Movin'On Summit.

For the past few months, the Movin'On Startup Booster has welcomed 12 startups to the ecosystem. The aim of the program is to support the growth of these startups through qualified connections among Movin'On members.

Every day, from June 1 to 4, these 12 startups will take the stage to present their innovative solutions to Summit participants in the format of *Flash Talks*. These solutions will respond to one of 4 research axes:

- Supporting the energy transition towards decarbonization
- Enhancing safety through connected solutions
- Optimizing people's journeys
- Designing circular approaches for mobility products and services

The objective is to help these startups find the right partners to help accelerate market implementation of concrete solutions for sustainable mobility.

These *Flash Talks* are presented by a partner of the Movin'On ecosystem. During the entirety of the Summit, startup leaders will be available to discuss with participants.

About Movin'On

Movin'On is the world's leading co-innovation ecosystem committed to sustainable mobility. It brings together more than 300 public, private, collective, and individual players: corporates, cities, countries, academics, international organizations, civil society. Independent and not for profit, Movin'On provides concrete solutions and innovations. This is done largely through its think-and-do tank Movin'On Lab and Communities of Interest.

Every year, the Movin'On community organises physical and digital events to drive projects forward in tangible ways.

From June 1 to 4, 2021, the [Movin'On Summit](#) brings together in a phygital format the biggest players in global mobility, from studios in Paris, Montreal and Singapore.
