Circular

Subject: Submission of 4th Semester (July 2024 Batch) Project Synopsis,

All students of 4th Semester (July 2024 Batch) – Online Degree Programs: MCA / MCA in AI & DS / MCA in CS & CC / PG Diploma (AI & DS / CS & CC / Big Data Analytics / Software Testing) are hereby informed to submit their Project Synopsis to their respective Project Guide and Program Coordinator, and also upload the same on the LMS on or before **8th June 2026**.

Students must ensure that the synopsis is prepared in the prescribed format. Students are instructed to contact their concerned Project Guide, discuss the project details, and submit the final Project Synopsis without fail.

No submissions will be accepted after the deadline.

To

1. All students of 4th SEM, MCA / MCA in AI & DS / MCA in CS & CC/PG Diploma (AI & DS/CS & CC/Big Data Analytics/Software Testing) programs.

Copy to:

1. The Registrar, VTU Belagavi for kind information.
2. The Registrar(Evaluation), VTU Belagavi for kind information
3. The Director, VTU CDOE, Mysuru for kind information.
4. The Deputy Director, VTU CDOE, Mysuru for kind information.
5. The Assistant Director, VTU CDOE, Mysuru for kind information.
6. VTU CDOE office.

ANNEXURE.

Format for submission of project synopsis

Synopsis, preferably, should be of about 3-4 pages.

- The content should be as brief as is sufficient enough to explain the objective and implementation of the project.
- The write up/document must adhere to the guidelines and should include the following:

Following contents have to be taken into consideration in synopsis:

Abstract:

(Should not exceed 1 page)

Motivation:

(Should not exceed 1 page)

Literature review:

(With cons and pros of existing methods in tabular form)

Problem formulation/Objectives:

Methodology/ Planning of work:

(Methodology will include the steps to be followed to achieve the objective of the project during the project development.)

Facilities required for proposed work:

(Software/Hardware required for the development of the project.)

References and bibliography: The complete list of books (chapter listing, topic listing), website links (complete URLs) and research papers (title and authors, year of publications) have to be mentioned.

Sample format of References:

REFERENCES

- [1] S. M. Metev and V. P. Veiko, Laser Assisted Microtechnology, 2nd ed., R. M. Osgood, Jr., Ed. Berlin, Germany: Springer-Verlag, 1998.
- [2] J. Breckling, Ed., The Analysis of Directional Time Series: Applications to Wind Speed and Direction, ser. Lecture Notes in Statistics. Berlin, Germany: Springer, 1989, vol. 61.

The students should be able to answer the following set of questions at the time of submission of the synopsis (if asked):

Question 1:- Explain in at least 100 words the reasons, why should the department approve your project?

Question 2:- What are the strengths and limitations of your proposed work?

Question 3:- Explain in at least 100 words what will be the positive impact of the project on society/academics/college/industry.

SPECIFICATIONS FOR SYNOPSIS

1. The synopsis shall be computer typed (English- British, Font -Times Roman, Size-12 point) and printed on A4 size paper.
2. The Synopsis shall be typed on one side only with 1.5 space with a margin 1.25” (3.5 CM) on the left, 1” (2.54 CM) on the top, right and bottom.
3. In the synopsis, the title page [Refer sample sheet (Cover page)] should be given first. This should be followed by index, notations/nomenclature.
4. The diagrams should be printed on a light/white background; Tabular matter should be clearly arranged.
5. The caption for Figure must be given at the BOTTOM of the Fig.
6. The caption for the Table must be given at the TOP of the Table.
7. The Bibliography/References should be written in IEEE format.

Table of Contents

Chapter No.	Description	Page No.
Chapter 1	Introduction and Problem Statement	
Chapter 2	Background/ Literature Survey	
Chapter 3	Objectives	
Chapter 4	Hardware and Software Requirements	
Chapter 5	Possible Approach/ Algorithms	
	References	

Chapter 1

Introduction and Problem Statement

(2 to 3 pages)

In the following sections, a brief introduction and the problem statement for the work has been included.

1.1 Introduction

As estimated by John et al. in [1],The detailed review of related techniques has been given in [2, 3].

Figure 1.1 Wrapper method for feature selection

1.2 Problem Statement

The problem statement for the present work can be stated as follows:

.....

Chapter 2

Background/ Literature Survey

(2 to 3 pages)

In the present times, research work is going on in context ofIn this chapter some of the major existing work in these areas has been reviewed.

Chapter 3

Objectives

The objectives of the proposed work are as follows:

3 to 5 Objectives in point wise

(1 page)

Chapter 4

Hardware and Software Requirements

4.1 Hardware Requirements

Sl. No	Name of the Hardware	Specification

4.2 Software Requirements

Sl. No	Name of the Software	Specification

Possible Approach/ Algorithms

(2 to 4 pages)

Figure 4.1 Filter method for feature selection

$$RMSE = \sqrt{\frac{(p_1 - q_1)^2 + \dots + (p_n - q_n)^2}{n}} \quad (4.1)$$

Table 4.1 Pseudo code of the ABC algorithm

Input.

D - the dataset, k -the number of clusters and α -the fuzzifier

begin

1. Initialize Z by choosing k points from D randomly;
2. Initialize W with $w_{jh} = \frac{1}{d} (1 \leq j \leq k, 1 \leq h \leq d)$;
3. Estimate U from initial values of W and Z according to Eq. 2.7.
4. Let $error = 1$ and $Obj = E_{\alpha, \epsilon}(W, Z)$;
5. **while** $error > 0$ **do**
6. Update Z according to Eq. 2.6 ;
7. Update W according to Eq. 2.5;
8. Update U according to Eq. 2.7;
9. Calculate $NewObj = E_{\alpha, \epsilon}(W, Z)$;
10. Let $error = |NewObj - Obj|$, and then $Obj \leq NewObj$
11. **end while**
12. Output W , Z and U

End
