## Configure & Utilize Custom Values

Use these custom values on your templates & client work to make the process of cloning and customizing a template much faster. Also, it means you only need to edit the custom value under the account settings in order for all sites using it to update automatically (including SEO)

These are standard fields that pull from Settings - Business Info

**Location Name**  
{{location.name}}

**Location Phone**  
{{location.phone}}

**Location Email**  
{{location.email}}

**Location Address**  
{{location.full\_address}}

**Location Logo**  
{{location.logo\_url}}

These are examples of fields that you would create & customize

**Product Name**  
{{custom\_values.product\_name}}

**Description**  
{{custom\_values.product\_description}}

**Event Name**  
{{custom\_values.event\_name}}

**Event Date/Time**  
{{custom\_values.event\_date}}

**Call To Action**  
{{custom\_values.call\_to\_action}}

## Create Section Templates For This Brand

Use these section on your templates & client work to make the process of cloning and customizing a template much faster. For this method, you would save the desired section as a template (*use format universally - not colors*) or as a global section (*sync with the other pages of a funnel when pulled in - with colors*)

- ✓ Hover Over The Desired Section
- ✓ Hit The Save Icon
- ✓ Save as a **template** to pull in the sections formatting into **ANY** funnel or website
- ✓ Save as a **global section** to pull into other pages of your **ONE** funnel or website to sync them
