

Ingredients: (to serve approx. 8)

4 Full Size Mars Bars (not snack size!)

3oz Butter

Approx. half a packet of dried apricots, chopped into small pieces

2 Tablespoons of Syrup

About 1 packet of Digestive Biscuits crushed into small pieces / powder mix

Method:

1. Chop / Break the Mars Bars into about 3 or 4 chunks each and put in a large microwaveable bowl
2. Add butter and syrup
3. Melt the mix in the microwave until it melts (but is not disintegrated)
5. Stir it all up
4. Add the chopped apricots
6. Add the crushed digestives
7. Stir it all up some more
8. Add more digestives as needed – They stop the mixture being too sticky
9. Turn the mixture out on to a board covered with clingfilm
10. Use the clingfilm to help you shape the mixture and roll it into a log shape
11. Place in fridge to 'set' overnight
12. Eat!!

If you decide to make our chocolate log cake, we would love to see how they turn out! You can show us by emailing marketing@futures-group.org
