

OUTDOOR

PAVER COLLECTION

In recent years people have been enjoying their gardens more than ever, and this has coincided with significant developments in the design and manufacturing of 2cm porcelain pavers. With the ability to create a bespoke space in the outside areas of your own home, the choice of 2cm ranges available today enables people to put their own stamp on the outer landscape of their property.

We have been busy increasing our ranges of exterior porcelain tiles, and our 2025 collection has a choice for any desired application, whether you're after a rustic and countrified look or a clean and contemporary design. Available in 60x60x2, 60x90x2, 60x120x2 and 40x80x2, our full collection is available to browse here in our outdoor paver catalogue.

Look out for the 'New for 2025' icon to see the brand new ranges that are freshly launched for the 2025 season.
