*Refer to Appendix G for rebuild cost data

**Refer to Appendix F for site value details provided by third party appraiser

*** Replacement Cost is the total between the rebuild cost and site value

**** Projected equity growth is the difference between the price for which the Done For You Client acquired the property and the replacement cost of the property.

***** Equity ROI is the annual return of the current market equity. Calculated by taking the current Replacement Cost, minus Purchase Price, dividing that figure by the Total Out of Pocket, and then dividing by 5 in order to get an annual return percentage. (We will assume that Replacement Cost value will be achieved in the market in 5 years.)
