

Animal Production Solutions for a Better Future.
Enhance growth, production, and efficiency.

PROBIOTIC

Micro-Complete

A concentrated source of viable, naturally occurring blend of beneficial bacteria, yeast, and enzymes designed for use as a probiotic nutritional supplement in animal feeds.

Features & Benefits:

- Enhances growth of beneficial bacteria in the digestive tract
- Prevents digestive upsets caused by pathogenic bacteria such as *E. coli* and *Salmonella*
- Improves performance as measured by growth rate, milk production, egg production, and feed efficiency
- Improves ration digestion
- Improves feed palatability
- Increased feed intake
- Yeast is especially favorable in ruminants because it stabilizes the pH of the rumen, prevents acidosis, and stimulates rumen microbial growth and oxygen scavenging, thus creating more favorable conditions for anaerobic microorganisms
- Combination of synergistic microbials in one package
- Safe to add to all feeds with no residue or withdrawal concerns
- All ingredients are GRAS certified (Generally Recognized As Safe)
- Manufactured in the United States of America

Guaranteed Analysis

PARAMETER	SPECIFICATION	
Yeast	2.0 x 10 ⁹	CFU/g
Lactic acid bacteria (<i>Lactobacillus acidophilus</i> , <i>Lactobacillus casei</i> , <i>Lactobacillus plantarum</i> , <i>Enterococcus faecium</i> , <i>Bifidobacterium longum</i>)	1.0 x 10 ⁸	CFU/g

Directions For Use:

For poultry, swine, and beef cattle, administer at a rate of 500-1,000 grams per ton of feed. For dairy cattle, administer at a rate of 1 kg per ton of feed or for lactation, 10 grams per head per day. For horses, administer at a rate of 1-2 kg per ton on feed. For aquaculture, administer at a rate of 500-3,000 grams per ton of feed.

Ingredients:

Dried *Lactobacillus acidophilus* fermentation product, dried *Lactobacillus casei* fermentation product, dried *Lactobacillus plantarum* fermentation product, dried *Enterococcus faecium* fermentation product, dried *Bifidobacterium longum* fermentation product, dried *Saccharomyces cerevisiae* fermentation product, dried *Bacillus subtilis* fermentation extracts, calcium carbonate, mineral oil, sodium bentonite

Appearance & Odor:

Cream to dark tan, free flowing to granular powder with little to no odor

Packaging:

1 kg pouches, 25 kg kraft bags

Safety:

All ingredients are Generally Recognized As Safe by the United States Food and Drug Administration. There are no adverse effect, interactions or contraindications with the product. No withdrawal time is required.

Storage & Shelf Life:

Two (2) years from manufacture date; store in a cool, dry area. Keep container closed when not in use.
