

Animal Production Solutions for a Better Future.  
**Maximize animal well-being and productivity.**

## SPECIALTY NUTRITIONAL SUPPLEMENT

# Piglet-Boost

A highly concentrated source of omega fatty acids and vitamins for newborn piglets.

## Features & Benefits:

- Produces heavier and more uniform piglets at weaning
- Reduces early mortality
- Allows earlier weaning to increase number of farrowings per year
- Improves performance during the growing and finishing stages
- Contains a high level of easily digested and available fat from vegetable sources
- Significant amount of simple sugars which are available as an energy source almost immediately
- High level of Omega-3 fatty acids which aid in stimulation of the immune system and circulatory function
- Sugars present provide a pleasant sweet taste along with vanilla flavor added resulting in a very palatable and readily accepted product
- Provides an early source of vitamins
- Improves performance during times of high activity or stress
- Provides broad spectrum vitamin supplementation
- Safe to add to all feeds with no residue or withdrawal concerns
- All ingredients are GRAS certified (Generally Recognized As Safe)
- Manufactured in the United States of America
