

SPECIALTY NUTRITIONAL SUPPLEMENT

Micro-Sil WS

A dry, water-soluble blend of selected strains of bacteria and enzymes to aid in the fermentation of silage.

Features & Benefits:

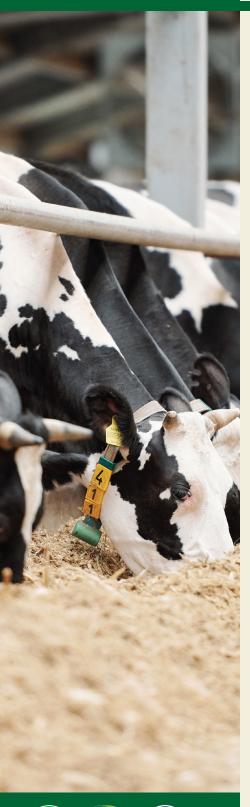

- Contains bacteria strains selected for their ability to improve the fermentation processes in silage
- Reduces heating and spoilage of silage
- · Assists in the rapid reduction of the pH of silage
- · Reduces dry matter loss
- · Improves feeding value of silage
- · Readily soluble in water
- Easy to apply
- Safe to add to all feeds with no residue or withdrawal concerns
- All ingredients are GRAS certified (Generally Recognized As Safe)
- · Manufactured in the United States of America

Guaranteed Analysis

PARAMETER	SPECIFICATION	
Total bacteria (Lactobacillus plantarum, Pediococcus acidilactici, Enterococcus faecium)	5.0 x 10 ⁹	CFU/g
Total Enzymes (Amylase, beta-glucanase, hemicellulase)	2,500	Units/g

Directions For Use:

Blend one pack (500 g) of Micro-Sil WS with 100 liters of water and apply the resulting solution at the rate of 400 ml per ton of silage.

Ingredients:

Dried Lactobacillus plantarum fermentation product, dried Pediococcus acidilactici fermentation product, dried Bacillus subtilus fermentation product, dried Lactobacillus casei fermentation product, dried Bacillus subtilus fermentation extract, silica dioxide, maltodextrin

Appearance & Odor:

White, free-flowing powder with little to no odor; readily soluble in water.

Packaging:

500 g pouches, 20 pouches per carton

Safety:

All ingredients are Generally Recognized As Safe by the United States Food and Drug Administration. There are no adverse effect, interactions or contraindications with the product. No withdrawal time is required.

Storage & Shelf Life:

Three (3) years from manufacture date; store in a cool, dry area. Keep container closed when not in use.
