“I have been blessed to meet Deborah Cooper who came on board and has assisted me as one of facilitators in helping me in getting the Demartini Method out to people. For the last 7 years she has not only been assisting me in the programs, but also in the teaching of the programs and getting the Demartini Method into the hands of the people who really need it the most. She has helped me also in Christchurch when the earthquakes came in and brought in teams to help people after the traumas to help them break through. She turned their stresses into opportunities so that they would not be weighed down and burdened anymore, but be fuelled for opportunity.

Deborah has been basically dedicating her last 7 years to mastering the work and helping people master their lives. Deborah's dedication in bringing this work has been throughout the world. If you have never had the opportunity to meet her, grab that opportunity and take advantage of her services, her skills and her knowledge in helping people make a difference in their lives and also make a difference in the world.”

**Dr John Demartini** - For over 43 years Dr John Demartini has travelled the world, as an educator and author, developing the Demartini Method, which allows people to transform their lives and live extraordinary lives.
