QUALITY CERTIFICATE dated 30.07, 2025

Product name	Soya bean oil, crude not degummed
Production date	15-29.07.25
Batch number	15-29/07/25
Vehicle license plate number	
Recipient	
Agreement/contract	
Consignment note	
Net weight, kg	

PHYSICAL AND CHEMICAL CHARACTERISTICS

Parameters		Results
Transparency		Slight turbidity over slight sediment is acceptable
Smell and taste		Inherent soybean oil, without extraneous smell and taste
Color number, mg of iodine		60
Mass fraction of moisture and volatile matte, %		0.18
Acid number, mg KOH/g		2,20
Peroxide number, ½ O mMol/kg		2,80
Mass fraction of non-fat impurities,%		0,08
Mass fraction of phosphorus-containing substances, no more than: in terms of stearooleolecithin, %		1.42
Mass fraction of phosphorus-containing substances, ppm		472
Shelf life (unpackaged soybean oil)		Two months
Conditions storage	In closed darkened rooms in the recommended temperature range from plus 8 °C to plus 25 °C and humidity not higher than 85%	
Notes:		
- for industrial processing into food products, unrefined oil with an acid value of no more than 6 mg of KOH is acceptable		

Corresponds to DSTU 4534:2006 "Soybean oil. Specifications."

The manufacturer guarantees compliance of the quality of soybean oil with the requirements of this standard, subject to compliance with the requirements of transportation and storage.

The safety of the supplied products is ensured in accordance with the ISO 22000 standard

The goods delivered are GMP+ FSA assured
