

Strategic Alliance: The Anthology Launch Catalyst

Transform Your Contributors Into a Synchronized PR Force

Jerrilynn B. Thomas | Architect of the Female Ally Economy

Smart Women Partner & Grow Rich

www.SmartWomenPartner.com

I provide the Collaborative Infrastructure that ensures your authors don't just "feature" in your book—they activate it.

By integrating a complimentary LinkedIn Refresher, you move beyond a standard book launch and into a **Market-Dominating Movement** where every contributor is equipped to command the LinkedIn algorithm in your favor.

The Ideal Alignment

I selectively partner with Visionary Authors and Anthology Leads serving the **50+ B2B demographic**. This is for the lead author who understands that a book's success is not determined by the number of contributors, but by the **Collective Velocity** of their shared promotion.

The Integration: The Author Activation Lab

I deliver a live, high-impact **LinkedIn Refresher & Activation Lab** (via the GoBrunch Loft) specifically for your contributors. This session is a working demonstration of the **Ally Economy**, where I:

Optimize for Author Authority

Guide contributors through live profile updates to highlight their participation in the anthology as a cornerstone of their professional legacy.

Synchronize Launch Assets

Ensure every author is following your official LinkedIn real estate and using your designated hashtags to trigger trending status.

Trigger Viral Momentum

Facilitate a live "Share-a-Thon" where authors push launch graphics and pre-order links to their networks simultaneously.

Institutionalize the "Co-Author" Brand

Teach contributors how to use their chapter as a high-level co-marketing asset for years to come.

The ROI for the Lead Author

Amplified Sales Velocity

You gain dozens of "PR Ambassadors" who are trained and motivated to promote your book to their high-authority LinkedIn networks.

Professional Alignment

Ensures your contributors' profiles reflect the prestige of your book, protecting your brand's institutional image.

Zero Operational Friction

I host the platform and provide the curriculum; you simply invite your authors to the "Loft" as part of their launch-week perks.

Legacy Building

You provide your authors with a high-value professional development session, increasing their satisfaction and loyalty to your project.

The "Why" Behind the Partnership

In exchange for this high-value activation, I request a **"Strategic Inclusion"** within the book ecosystem (such as a mention in the acknowledgments or a collaborative tie-in chapter) and the opportunity to introduce my **Partner Portfolio** to your authors. This is a pure value-exchange designed to grow the **Female Ally Economy**.

The "Pitch Me" Protocol

Because I am committed to high-stakes launch success, I only accept a limited number of book partnerships per season. Your pitch must articulate:

01

The Anthology Vision

What is the core message and target audience of the book?

02

Contributor Intelligence

How many authors are involved and what is their collective reach?

03

Mutual Legacy

How will this partnership accelerate our shared mission to elevate the voices of women over 50?
