

# IMPROVE YOUR LAND GROW YOUR LEGACY

## GET PAID TO CONSERVE WITH THE ENVIRONMENTAL QUALITY INCENTIVES PROGRAM (EQIP)

### What EQIP Can Help You Do:

- Boost soil health and reduce erosion
- Improve water efficiency (irrigation upgrades, pipeline installation)
- Enhance wildlife habitat (pollinator plots, native plantings)
- Manage grazing lands for better forage and livestock health
- Reduce runoff and protect water quality
- Adapt to drought and extreme weather

### Financial Help for Your Operation:

- Cost-share up to 75% (up to 90% for historically underserved producers)
- NRCS helps you plan and install approved practices
- Flexible options for row crop, livestock, specialty crop, and forest operations

### How to Get Started!

Contact your local USDA Service Center  
Request a free conservation plan  
Apply for EQIP funding  
Install practices with NRCS support  
Receive payments as you complete the work

### Who is Eligible?

- Farmers, ranchers, forest land owners
- Tribes, non-profits, and historically underserved producers
- Owners or tenants with control of the land for the contract period

### *Don't Wait — Deadlines Vary By State*

The sooner you apply, the sooner your land starts working better for you—and for future generations.
