Welcome to the Centre for Pre-University Studies. Here we cultivate your foundation towards being the future professional you desire – be it an Engineer, Doctor, Pharmacist or Entrepreneur, a solid foundation towards the undergraduate programme of your choice is vital hence this is your time to seize the chance to bolster and gain that edge. Here at MAHSA University, we strive to make a difference in every student through enhancing their skills and broadening their prospects. The Centre is dedicated to providing the required knowledge to excel in the diverse and challenging technologies that is meant for an array of rewarding careers. Our students acquire and develop critical and conceptual skills that are required to master in the globalised, vibrant, progressive and competitive markets. Our lecturers invest in effective personal approaches to education. Our industrial tie-ups and industry-based classroom learning, nurtures the talents and dreams of our students. Our diverse programmes ranging from Diploma to PhD cater for the needs of our graduates and the employers, and through our UK dual-award programmes, our courses are bench-marked to UK Universities, giving us the added advantage of creating globally-recognised graduates. We hope you find the right programme in our University through our Centre that will allow you to craft your niche in the world of business, science or technology. We look forward to having you be part of our academic family – to explore, and experience a great future, let's get you started for It's Time to Be More!

MAHSA ALUMNI

“ I joined this foundation with the thought of pursuing any business degree since its pathway for any business degree programme. I always like to explore and open to learn new things. Ever since the pandemic came, I was affected by it as well as others and lost interest in the diploma programme I was enrolled in. Somehow, I managed to complete it. Since I was doing to small business during pandemic, I decided to continue my studies in business so that it might be helpful for me to run any business in the future. So, I decided to continue to foundation first instead continuing degree programme straight away since I don't have any knowledge about business. Ever since I joined this programme, I found myself having passion and interest towards business field. I am thankful towards MAHSA and my lecturers who have been there for whenever I need guidance or to clear any doubts. The class and the whole environment that prepared by MAHSA was helpful for me learn comfortably without any discomfort or any problems. ”

BATMANABEN A/L S CHANDRAPRAKASH
Foundation in Business, Jan 2022 Intake

“ MAHSA Foundation in Science gives a well-rounded experience as I was able to have a healthy study-life balance between academics and weekly activities. The program stands out due to its quality of teaching with its highly experienced lecturers. Lecturers are able to impart knowledge effectively and prioritize students' needs at all times. The lecturers teach passionately and are prepared to hold consultation classes to ensure students do not get left behind in their studies. Lecturers are also approachable and friendly, making students feel welcome and at ease to share their concerns. The campus facilities at MAHSA, such as the well-equipped library, laboratories, and study areas also creates a conducive environment for students to concentrate on their studies while having the opportunity to socialize, foster teamwork and cooperation, and lend a helping hand to one another whenever required. ”

PROFESSIONAL COURSES

Through MAHSA's collaboration with internationally recognised professional bodies, and industry partners, students will earn certifications that will enhance their professional skills which will increase their employability rate.

MOBILITY PROGRAMME

This is a unique opportunity for students to study abroad for up to one year. This programme allow students experience different cultures and practices from around the world. Ask us about our university partners in over fifty different countries and experience a truly global education.

MICRO-CREDENTIAL COURSES

Paperless to PhD -Your byte-sized education towards a specialisation!

With the demands of the 21st century, lifelong learning has become a more crucial method of surviving in the ever-changing working environment. Micro-credentials are learning certificates for a smaller set of courses or modules that are intended to give learners the information, skills, values, and competencies in a specific area of study. Micro-credential courses may either be from an accredited programme or a standalone course that supports the professional, technical and personal development of the learner. Individuals can pursue micro-credential courses as part of an accredited educational programme or as a means of upskilling or reskilling for professional growth.
