

CORE CLEANING *Package*

This maintenance cleaning plan is a popular option to the Deluxe clean because it focuses on the CORE and often the hardest rooms/areas to clean. This package is at a 20% discount from the Deluxe Package.

The areas included in the Core Cleaning are:

- Kitchen
- All bathrooms
- One additional room (often the Family room or Master bedroom)
- Vacuum and mop all floors throughout the home, including the stairs.

The maids clean these rooms and areas in the same way as the Deluxe Cleaning, so you get the same high-quality cleaning you expect with the Deluxe Clean but at a deeply discounted price.

This cleaning plan is a perfect match for customers who don't mind cleaning some of the easier areas of the home that are not included in this cleaning package.

Important things to know about the Core Cleaning Package

- The following areas are not included and will not be dusted or cleaned except for the floors. Those areas included but are not limited to the foyer, laundry room, dining area adjacent to the kitchen, formal dining room, bedrooms, den or study, hallways, stair rails and spindles, common areas, front door window, and adjacent windows.
- You can upgrade or return to Deluxe cleaning at any time.

- The kitchen area does not include the adjacent dining area. In this cleaning package, the kitchen is considered to be the area where the kitchen countertops and cabinets end.
- If you select the Master Bedroom as your one additional room, our service does not include changing the linens and making the beds. That can be added for \$3.50.
- You can rotate your one additional room at any time. Contact the office or leave a note for the maids if you are making changes in the one additional room.
- Your one additional room can be any room-like size in the home: Any bedroom, playroom, den, formal dining room, etc.

Many customers often purchase a Top-to-Bottom cleaning every year or more frequently to get their entire home cleaned, including those areas not included in the Core Cleaning.
