ROOT in 26 & GPS Teaching Arc Overview

Reflect. Order. Own. Thrive.

The *ROOT in 26 & GPS Curriculum* is designed to guide learners through a rhythm of reflection, reordering, ownership, and thriving — a sacred sequence that mirrors how growth, purpose, and success unfold in real time.

Each quarter reveals a layer of transformation:

- **Growth** becomes *the evidence of transformation*, showing up in grace, resilience, openness, and reflection.
- **Purpose** reveals *the identity of transformation*, where becoming is cultivated through trust, stewardship, ownership, and excellence.
- **Success** expresses *the richness of transformation*, defined not by arrival but by relationships, integrity, confidence, and honor.

This journey is both personal and communal — a living curriculum that integrates spiritual formation with practical rhythm. Participants are invited to align inward truth with outward expression, learning how to root deeply in growth, walk purposefully in identity, and rise gracefully into sustainable success.

Every quarter carries a posture:

- **Q1 - Reflect (Relational Routing):** Pausing with grace to find flexibility in formation.
- **Q2 - Order (Strategic Alignment):** Standing steady through resilience and stewardship.
- **Q3 - Own (Embodied Ownership):** Leading with courage, responsibility, and rest.
- **Q4 - Thrive (Integrated Excellence):** Refining what was learned into legacy and honor.

ROOT in 26 is not a sprint through information — it's a sacred return to integration. It reminds us that transformation is not something we chase; it's something we carry.
