

Feature Update June 2023

New Features:

1. Added an option to reopen action items that have been closed.

Enhancements:

- Added a “Reopen and Resend” button when reopening action items.
- Removed the large location map from the bottom of site pages to increase performance.

Bug Fixes:

- Removed the division column from site level inspection histories.
- Fixed an issue that would cause an error when trying to sign up for a free account.
- Corrected an issue where the characters & and / were not searchable.
- Fixed an issue that could cause an error when resetting passwords.
- Fixed an issue that could cause a spinning circle when entering invalid login credentials.
- Fixed an issue that could cause an error when closing an action item during an inspection.
- Removed the “weather pre-event for industrial site (forecast)” option for notifications.
- Fixed an issue that could cause bulleted lists to show as numbered lists on inspection reports.
