HI THERE, I KNOW YOUR SUPER NERVOUS! BUT I GOT YOU!

I just want you to know your in the absolute best hands ever! I have been photographing women since 2009 and have refined my craft so I can take photos of literally anyone and make them love all of their images. It's a super power really! I'm going to give you some amazing tips so you can have the best experience ever and see how the process works!

I'm going to go over some stuff for you:

- An in-depth overview of the session experience
- Some tips on how to prepare
- 6 of my favorite lingerie shops

SESSION CONSULTATION

We will schedule a time to chat about your session. I can answer any questions you have and talk about what you are looking for in your boudoir photos. We get to really know each other and laugh like old friends. I want you coming into your session day and feeling like we have already met and are besties!

I will go over the process of the day, talk about hair and makeup, any outfit ideas you are thinking of bringing or if you want to wear anything in my closet. Which probably has over 100 pieces in it by now with sizes S-4XL in every color and style you can imagine.

THE PHOTO SHOOT

Day of the session starts with hair and makeup getting fully pampered and beautified. Come with a fresh clean face and clean dry hair. We will chat like old friends about everything while you get prepped. Then we get to go through the outfits you brought or my giant lingerie closet!

This is the scary part, but don't worry I'm a master at calming nerves and showing you exactly what to do and how to pose. Giving you the instant gratification of seeing behind my camera a ton so you can see how amazing you do look. So don't worry and know I have got you covered.

I have a strategy to put every client's nerves at ease. Usually starting with the more modest outfits and we work into the shoot and up to a little more risqué photos if that is what you want. Like in the white sheets or implied nudes. ;)

IMAGE REVEAL

Cooler part of the experience after your session I have narrowed down to the best of the best and fully retouched your images! You will hold your image reveal session within 2 weeks of your session date.

I have had many ladies even cry when they see their images. Not believing that this is them and they look this amazing. Most of my clients love all of the images I show them and want to take them all home.

DELIVERY

I am not a photographer that messes around. You will have your digital gallery to download your images within 2 weeks. I love to get it to you within a week. But I say two weeks incase life happens and the plague hits my house haha.

5-6 weeks after your session you will have your gorgeous album in your hands. Ready to enjoy and look at. Or to wrap up to give to your special someone!

TOP 3 TIPS FOR AN AMAZING BOUDOIR SHOOT

PRE-SESSION BEAUTY PREP

I suggest getting a mani/pedi a few days prior to your session. If you wax, don't forget to pencil that into your schedule, as well.

If you want to have a base tan for your photos, we recommend beginning to tan a few weeks prior to your session to avoid burning - and remember to think about your outfit and avoid any tan lines that will look bad in photos.

I suggest staying away from spray tans. Don't forget to get your eyebrows shaped before your session.

A FEW DAYS BEFORE YOUR SESSION

Lower your salt intake to avoid bloating and also eat a light breakfast the morning of.

Drink a lot of water leading up to your session for beautiful, healthy skin, and get a good night's rest the night before. Shave and moisturize for beautiful legs. Wear clear deodorant.

Don't wear tight clothing, bras, panties, socks, etc. the morning of your session or driving to your session. These will leave red marks on your skin and we want you to look your best.

And bring your favorite perfume and lotion so you look and feel amazing.

RELAX

The most important thing you can do is relax. I will make sure you look amazing in your photos, so don't worry! If you're uncomfortable, it will show, so just keep calm.

My clients are all regular people, moms, Dentists, entrepreneurs, receptionists, and managers with no experience with photoshoots and posing. Leave that up to me to make you look and feel amazing.

It's your job to show up and have fun, and it's my job to make you look drop-dead gorgeous!

WHAT TO WEAR

On the next page are some of my favorite lingerie shops to buy from. Or you can borrow from my client-style closet. But here are a few things I try and pick out when I'm planning 4-5 outfits for your session.

- At least one bodysuit. Two if you want one with sleeves and one without. I love bodysuits with sleeves because it shows off more of the lace for texture and if we don't love our arms then it helps to slim them.
- At least 1 - 2 bra and panties set (even if you have a mom tummy I have poses that will make you look amazing even in a 2 piece!)
- Something special to you and your partner. Maybe it's his cowboy hat, his button-up shirt, sweater, his favorite jersey, or his favorite top you have.
- Heels, the higher the better! I have some 4" heels in my closet in black.
- Cheeky underwear or thongs that are a size bigger than normal. Don't want them giving you a muffin top so we just want the illusion of underwear ;)

TOP 6 PLACES TO BUY LINGERIE

SHEIN

Great selection for all sizes and super affordable!

US.HONEYBIRDETTTE

Everything is so amazing and I have a few pieces in the client closet from here!
