

## Student Homelife Evaluation

### Introduction

The homelife for each student impacts their ability to process information and build knowledge, thereby impacting how well they can do in school. The purpose of this evaluation process is to inform parents about opportunities to strengthen skills and change factors that empower academic success for their children.

Some questions are subjective and may be difficult to discuss. Not every student is impacted the same way by each factor. If family and student basic needs are not being met, it is important for the Movement to help every family achieve a basic level of well-being. Well-being impact youth success.

### 1. Housing

	1	2	3	4	5
