

Gibson Test and BrainSkills Admin System

Go to <https://www.cogread.com/login.html>.

Select the Administrators Icon.

Login options: Please select the button below based upon the task you need to complete.

ADMINISTRATORS

Access your administrative account to manage students

ASSESSMENTS

Students, click here to access your student homepage where you can begin an evaluation

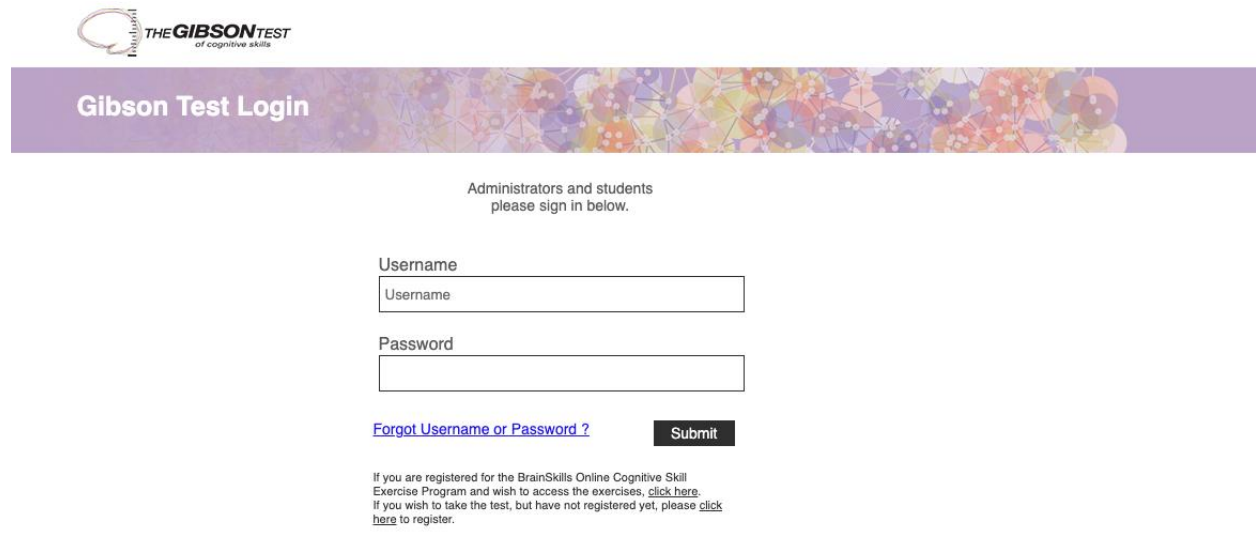

TRAINING

Students and administrators, click here to access the online training programs

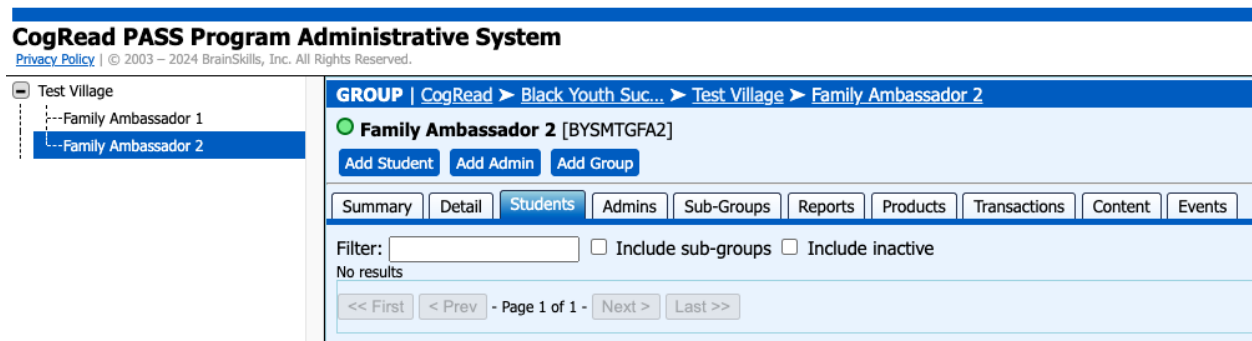

This takes you to <https://gibsonstest.com/login.php>.

Enter the Username and Password you have been provided.

The first screen you will see in the Gibson Test admin system will look similar to the test group below.

Under the name of the group, the first group of tabs allows the admin to create an account for each student, add an admin for the main group or subgroup, or add a subgroup.

You can create as many subgroups under the main group as needed to organize students. Each subgroup can have a unique login for the appropriate designated person to manage only that group of students who are registered in each subgroup.

For example, if a village has ten Family Ambassadors, a subgroup can be created for each Family Ambassador (FA) and a unique login created for that FA.

Register appropriate students under each FA. The system allows students to be moved from one group to another as needed.

Select the proper subgroup, then click Add Student and the following screen on the next page will appear to register a student.

Only information in the red blocks is required, but it is best to fill in the name of the student, parent or guardian name, email address for parent/guardian, the date of birth for the student and gender.

Make the user ID and password so it is easily remembered by the student.

We often use first initial and last name for the user ID. If the student is also registered in Reading Kingdom, try to make the User ID and password the same, or very similar.

Click submit when done.

If the user ID is already in use in the system, add a letter or number to the user ID to make it unique.

Evaluation Results

Once a student has completed the Gibson Test, the results will be available under this tab.

Exercise Status

This tab shows detailed results for when a student works on the BrainSkills training program. Training protocols can be adjusted under this tab. A more detailed tutorial on this aspect will be provided in a separate document.

Products

This tab shows what products the student has access to. If the correct products are not available, talk to your supervisor.
