YOUR FREIGHT SOLUTION EXPERTS

SHIP WITH HUDSON

YOUR FREIGHT SOLUTION EXPERTS

Teajuanna has been in the customer service industry for over 20 years while Devan has been running his logistics career for over 15 years. With their collective experience and expertise, they've created a thriving full-service non-asset-based transportation firm specializing in time and date-sensitive shipments. They believe you can, too!

Smart companies can mitigate costs by adopting a proactive and well-planned strategy to manage their freight program. As experts, Tijuana and Devan have prepared this extensive 6-week mentorship program which is a very good start for you as it will provide you with a good introduction to freight brokerage and show you how to start and begin operating your business.

OUR SERVICES

FULL TRUCKLOAD

In Full Truckload, get a dedicated service where the whole truck is yours to use. We specialize in Full Truckload Dry Van, Flatbed, and Reefer Freight. Have the perfect space in trucks for your specific freight only. We partner with only top-notch carriers who have been pre-screened and thoroughly vetted. There are no stops or transfers from one truck to another, leading to faster cargo delivery; with Macropoint tracking and constant communication to avoid plant shutdowns or loss of productivity.

LTL / LESS THAN TRUCKLOAD

In Less than Truckload, you can use a part of the truck to move your cargo and only pay the space you use. We'll consolidate your items with other goods from other customers. Here at Hudson Freight, we will treat your smaller shipments with the same high level of service we provide all of our customers. With many of our LTL carriers performing load to ride operations, your freight will be handled by fewer dock workers in turn reducing the chances for accidental damage while in transit.

EXPEDITED

Expedited shipping service gives access to a wide range of tailor-made solutions. Our network of Expedited carriers can handle your shipments with care, and get them where they need to be when they need to be there. We offer Sprinter, Cargo Van, Box Truck, and White-Glove Services with Macropoint tracking and reliable drivers.

INTERNATIONAL SHIPPING

We now offer options to ship your international freight. Whether it's coming to the USA or leaving. These options are door to door and anywhere in between when dealing with your LCL, full container, and even air.

RAIL / INTERMODAL

In Rail / Intermodal, you get the most cost-effective option. Through the partnerships we have formed with all the major rail carriers, Hudson Freight can offer our customers savings in excess of 30% on most lanes over 700 miles. This option has its environmental impacts as well. Rail emits 1/10 the hydrocarbons and diesel particulates, and 1/3 the oxides of hydrogen and carbon. Not only will your company be beefing up its bottom line, it will be reducing its carbon footprint at the same time.

We make your job easier and your supply chain manageable. We run on trust, integrity, and safety.
