Body sculpting increases flow of both the lymphatic and circulatory systems, and it also helps with cleaning of the tissues. The main use of body sculpting treatment is inch loss, diminishing of cellulite, and tightening of the skin.

Benefits: Lose 1-3 inches per treatment with state-of-the-art equipment. Benefits are often immediate but may be delayed in some people.

For Best Results: A series of 9-12 body sculpting treatments are recommended per each area, but some individuals may require more treatments to achieve maximum results. There should be at least 3 days between each treatment. This is not a weight loss treatment, but an inch loss. The inches will only return if the client goes back to their old habits. Eating the right types of food, proper exercise, and drinking 8 glasses of water per day are always recommended. For best results, it is recommended that you exercise within 4-6 hours of treatment and avoid sugar and alcohol for 48 - 72 hours after each treatment.

Precautions: Body sculpting treatments are not recommended if you are pregnant, breast feeding, have a lymphatic disorder, acute illness, metal implants, pacemakers, or are currently being treated for active cancer.

Waiver: I understand that I am using 6 in 1 40k Slim Machine, Vacuum Cupping Machine and Laser Lipo Machine provided by Ace of Body Contour at my own risk. Should I sustain an injury while using the equipment, I agree to not hold Ace of Body Contour responsible.

Acknowledgement: I understand and acknowledge that payments for the above services are non-refundable. By my signature below, I certify that I have read and understand the contents of this Consent Form for Ace of Body Contour. I further agree to provide Ace of Body Contour 24- hour notice of a cancellation or change in appointment time, or I will forfeit a treatment off my package since treatments are by appointment only. There are no refunds if I am responding to treatment and decide to stop treatments. Should I decide to add a treatment, that treatment will be considered an additional and separate treatment.
