Shingle Saver

Revive

Wood Saver

Concrete Saver

Extend the life of your roofs, concrete surfaces, and wooden structures.

Protect your property investments from weather damage and wear with our cutting-edge technology.

Significant savings on maintenance and replacement costs.

Discover the Power of Nanotechnology

Nanotechnology involves manipulating materials on an atomic or molecular scale to create extraordinary properties and benefits. At GoNano, we harness this cutting-edge technology to develop products that protect and prolong the life of various surfaces. Our advanced formulations create a hydrophobic barrier that repels water, resists dirt and grime, and significantly reduces wear and tear.

KEY BENEFITS:

Extended Surface Life: Our treatments can prolong the life of treated surfaces by up to 15 years.

Cost Savings: Reduce maintenance and replacement costs with our durable, long-lasting solutions.

Enhanced Protection: GoNano products protect against environmental damage, including UV rays, damaging winds, rain, hail, corrosion and freeze-thaw cycles.

Guaranteed Performance: We stand by our product and we guarantee it for your peace of mind.

Tested and Proven Performance

At GoNano, we pride ourselves on the rigorous 1 Million dollar testing our products have undergone to ensure their efficacy and durability.

TESTING FROM REPUTABLE INSTITUTIONS:

- ❖ **UL2218:** Impact Resistance Testing – Our treated shingles have shown a threefold increase in impact resistance, making them extremely strong.
- ❖ **IBHS:** Impact Resistance Testing
- ❖ **UL790:** Fire Proof Standards Testing
- ❖ **ASTM D3161:** Great Winds Standard Testing

Our commitment to quality and performance means you can trust GoNano products to deliver outstanding protection and longevity for your property.

GoNano Revive - Breathes New Life Into Old Roofs

The Affordable, Extra-Mile Solution for your older Roof

Add 5 to 10 years to your roof with GoNano Revive! Specially formulated to rejuvenate and protect asphalt shingles, this cutting-edge solution utilizes state-of-the-art nanotechnology to revitalize your roof.

Revive

Extend

Protect

KEY BENEFITS:

Save - 90% compared to a total roof replacement,

Time - Installation is done in under one hour

Tested - and proven by 3rd parties

KEY FEATURES:

Revive - Bring back the strength and durability of your aging roof

Extend - Add an impressive 5-10 years to the lifespan of your old roof

Protect - Shield your roof from the elements with superior nanotechnology

PRODUCT DETAILS

Ecology - Green & Safe for Humans, Pets and Vegetation

Made For - Asphalt Shingle Roofs

Active Ingredients - Nano-Particles & Bio-Oils

GoNano Shingle Saver - Perfect For Younger Roofs

Save Thousands On Your Roof

Add 10 to 15 years to your roof and get a true 30 year roof! Shingle Saver reduces the aging process of your roof by stopping oxidation in its tracks and doubles your roof's useful life at a fraction of the cost of a new roof.

Transparent

Effective

Durable

KEY BENEFITS:

- ✦ Increases resistance to hail storms and damaging winds
- ✦ Protects against UV rays
- ✦ Cleans/stops algae growth
- ✦ Reduces/stops water infiltration
- ✦ Preserves and regenerates original color
- ✦ Stops loss of granules
- ✦ Facilitates the evacuation of water/ice/snow

PRODUCT DETAILS:

Ecology - Green & Safe for Humans, Pets and Vegetation

Made For - Asphalt Shingle Roofs

Active Ingredients - High concentration of Nano-Particles plus Bio-Oils

GoNano Concrete Saver - Superior Concrete Protection

Shield Your Concrete And Get More Life

Add up to 10 years to your concrete and save big on replacement costs. Concrete Saver penetrates deep into concrete and masonry to protect it from the inside out. It has a natural flat finish, does not change surface appearance, it's UV stable and won't break down.

KEY BENEFITS:

- ❖ 100% Breathable - won't trap moisture
- ❖ Protects against chloride and ion penetration
- ❖ Cleans/stops algae growth
- ❖ Stops water and salt infiltration
- ❖ Resists mold, mildew & efflorescence
- ❖ Stops staining from grease & food exposure
- ❖ Simplifies maintenance & is abrasion resistant

PRODUCT DETAILS:

- 🌿 **Ecology** - Green & Safe for Humans, Pets and Vegetation
- 🏠 **Made For** - Concrete, Masonry, Stucco & more
- 🔗 **Active Ingredients** - 100% Nano-Particle Blend

GoNano Wood Saver - High Tech Wood Preservation

Affordable Excellence in Wood Surface Protection

Superior wood care that saves you money and makes maintenance a snap. GoNano Wood Saver is a 100% active nano coating that will outperform traditional coatings x 10 by modifying wood fibers to make it more resistant to humid and dry climates.

KEY BENEFITS:

- ❖ Exceptional waterproofing & breathability
- ❖ Superior UV protection
- ❖ Protects against chloride and ion penetration
- ❖ Stops rotting from moisture intrusion
- ❖ Resists staining from Grease, Food & Atmospheric exposure
- ❖ Reduces maintenance costs
- ❖ Improves durability

PRODUCT DETAILS:

 **Ecology** - Green & Safe for Humans, Pets and Vegetation

 **Made For** - all wood surfaces

 **Active Ingredients** - 100% Nano-Particle Blend

FAQ's (Roof Treatment)

When should GoNano technology be applied to a roof?

Answer: The earlier you apply GoNano Shingle Saver or Revive, the quicker you can take advantage of GoNano's anti-aging benefits.

Does the application of the product void the warranty from shingle manufacturers?

Answer: That's a hard NO! GoNano does not void any of the current shingle manufacturer warranties. We have undertaken a comprehensive legal assessment with our law firm to confirm this for leading shingle manufacturers.

Do you do repairs before applying the product to the roof?

Answer: Yes, a certified GoNano installer will conduct minor roof repairs, including (but not limited to) the replacement of any missing, damaged, or loose shingles, before applying the GoNano product.

Is GoNano toxic for the environment?

Answer: Absolutely not! All of our products are environmentally friendly to humans, pets, and plants! So no need to worry about toxic chemicals running down your pipes, or any surface.

What is your product warranty?

Answer: The warranty period differs depending on the product: Shingle Saver, designed for asphalt shingles, provides coverage for up to 15 years, whereas Revive (roofs older than 8 years old), along with Concrete and Wood Saver, are guaranteed for up to 10 years. The length of the warranty for treatments performed by our certified partners may vary, taking into account the surface type, local weather and its condition at the time of application. And bonus for you, the warranty is fully transferable, offering continued coverage in case your property is sold.

PROTECT THE ROOF THAT PROTECTS YOUR FAMILY

yahoo! finance

"Both my daughter and grand-son have used GoNano because of results on my roof. Now I'm protected for years to come and I have a warranty to back it up."

Michael - Upstate New York

"This has saved us from a very expensive and complete roof replacement. Now that we have done GoNano, we will never go back. Thank you for all the money you saved us!"

Austin - Jacksonville Florida

"I have no more granule loss which is a sign to me that it works and it's now obvious we'll get another 10 years out of our old roof. So we sleep a little better now because we've dealt with people that are looking out for us."

David - Aledo Texas

"We couldn't be happier with the treatment done on our 15 year old roof, the entire process took 90 minutes without any damage to our property and I like that I didn't have to worry about my gardens, pets and kids."

Carla - Detroit Michigan
