

# COMPLIANCE 4 LIFE

KEEP YOUR HEAD ABOVE WATER, *WITHOUT HIRING MORE STAFF*

## WHY **COMPLIANCE 4 LIFE?**

You're already stretched.

Between audits, QMS upkeep, validation reviews, and ever-changing regulations—compliance isn't just another task. It's a critical function that should be integrated across your business to help drive operational excellence.

That means audit readiness all the time and your peace of mind. But hiring another full-time staff member isn't always realistic.

That's where Compliance 4 Life comes in.

A monthly support service that gives you consistent access to senior-level compliance experts—without the cost of hiring. It's like having an experienced Quality Manager available to your team.

### **Your Dedicated Compliance Partner**

When you become a QSN Compliance Partner, you'll get a dedicated resource working with your team on a regular basis to manage quality and compliance.

### **Training & Capability Development**

We can support your team's training efforts—rolling out training plans, delivering sessions, and managing your training system to ensure alignment and ongoing compliance.

### **Vendor & Supplier Oversight**

We help complete vendor assurance qualifications, conduct re-qualifications, and support ongoing supplier reviews to maintain a robust external partner network.

### **Investigations & Issue Management**

We assist with executing investigations into deviations, out-of-specification (OOS) results, complaints, and more. We also help define and implement strategies for managing core quality systems—such as CAPAs, change control, investigations, and audits.

### **Audit Management & Readiness**

We assist in completing and reviewing internal audit outcomes, preparing your annual audit schedule, and reviewing reports from external audits. We also support your audit readiness ahead of regulatory inspections.

### **QMS & Documentation Support**

Our team can drive QMS document updates, whether it's improving processes, simplifying language, or managing document control. We also support the drafting and review of validation protocols and reports, including completing periodic validation reviews.

### **Risk & Validation Management**

We offer hands-on support for risk management activities, including facilitating risk meetings, drafting or reviewing process risk assessments, and helping you manage your risk system. Our team also supports validation needs, from protocols to periodic reviews.

### **Strategic Compliance Guidance**

We provide compliance-focused input to support business decisions—ensuring strategic alignment without compromising regulatory expectations.

## HOW IT *WORKS*

YOU CHOOSE	OPTIONS
Term	12 months / 24 months / Ongoing (minimum 12 months)
Support Level	Half-day or Full-day per week or customized for you
Payment	Monthly upfront billing OR annual prepay at a discounted rate (20% off annual payment)
Extra Support	Any additional hours on top of the agreed support level to be charged in arrears based on hourly rate
Need More?	We can scope a tailored project beyond weekly support if needed. Just let us know.

EXAMPLE COMMITMENT & COST STRUCTURE			
Commitment	Support Level	Hours Worked	Prepay Discount Available
12 Months	Half-day/week	4 per week	Yes
12 Months	Full-day/week	8 per week	Yes
24 Months	Customised	Varies	Yes

*Exact pricing is tailored based on support level, consultant experience required, and scope of work. Please schedule a call with us to discuss your needs.*

## Who is This For?

- Companies with lean or stretched QA/RA teams
- CEOs & Quality Managers needing ongoing inspection readiness
- Startups needing a Quality Manager
- Companies with tight budgets not able to hire permanent staff
- Sponsors responsible for outsourced activities without in-house skillsets
- Manufacturers needing long-term support from a senior GxP consultant
- Businesses expanding into regulated markets

## Why Partner with QSN?

We've worked with pharmaceutical, biotech, and medical device companies across multiple regulatory regions to reduce compliance risk from inaction or lack of resources, and to keep your company inspection-ready.

- ✓ Proven track record in pharma, medical device and biotech environments
- ✓ Senior consultants with long-term experience in the industry with technical and strategic understanding
- ✓ Flexible models tailored to your budget and resource needs
- ✓ Trusted advisors who understand the stakes

## Doing the Minimum Isn't Enough Anymore

Inaction = Audit findings, delays, and preventable cost  
from hidden issues or poor business decisions
