Foreword

by Dr. Peter A. McCullough, MD, MPH

As a practicing internist and cardiologist, my patients have been calling for a single, authoritative, highly cited, evidence-based monograph on the COVID-19 vaccines. Drs. Viglione, Thorp, and Ms. Sally Saxon, JD, have provided a timely answer in “The COVID-19 Vaccines & Beyond.”

This comprehensive yet concise monograph covers the COVID-19 vaccine debacle from the basics of what the products are, what they do, and the array of safety concerns that have Americans walking off the job, leaving school, and being worried more than ever about their health care.

The “Medical Industrial Complex” is an important concept signaling that a powerfully corrupt syndicate has formed and is operating worldwide. By using declarations of “medical emergencies” through the tentacles of the syndicate, governments have opened their treasuries and are being drained by a conglomerate of bio-pharmaceutical stakeholders with a single mission — “a needle in every arm” without exception for every human being on earth as frequently as possible.

The time-honored regulatory practices for biological agents have been jettisoned by the Complex to rush products forward without adequate randomized trials and with no assurances of quality and purity. The medical literature has become a mouthpiece for the Complex and is no longer trustable as a source of unbiased data.

The COVID-19 vaccination program has taken American medicine off the rails and patients are scrambling to get their bearing in a new world where the long-term implications of mass genetic injection are eerily uncertain.

Everyone is seeking to understand the mind-blowing reality that government agencies are not protecting Americans nor are they acting in our best interest. The military, large employers, and schools appear to be in menacing lock-step with no accountability.

This fast-reading text will serve as an invaluable guide for each and every family trying to navigate the vaccine disaster.

Be sure to give this book a careful read and keep it in a place for handy reference as this topic is bound to resurface in the next few years.

Other Endorsements

As a pediatrician who has been on the frontlines of this pandemic from the beginning, I applaud the efforts of Drs Viglione, Thorp and Sally Saxon in bringing forth the truth about these Covid injections and the corrupt, evil agenda behind them. The fact that the CDC just put them in the childhood vaccination schedule is an unparalleled and unequalled atrocity – a crime against the future of our human race!

A lot of people will find this book difficult to believe because it reveals evidence that does not comport with their beliefs. Those who are courageous

enough to confront the evidence that is hidden in plain sight will be richly rewarded with an entirely new perspective on what might be really going on. It would be hard to read this book and not come to the realization that we've been lied to and that the only way this is going to end is with the call to action articulated at the very end of this book. That's why it's so important that every doctor in America read this book and speak publicly about what they are seeing in their own practices.

Sally Saxon, J.D., and her two medical cohorts, Dr. Deborah Viglione, M.D. and Dr. James Thorp, M.D. have produced a stellar work in exposing, describing and elucidating all the ugly facts that involved the mutiny of medicine for a higher evil purpose. They paint an exquisite big picture of the motives and significance of the greatest propaganda crime right the world has ever known. *The COVID-19 Vaccines & Beyond* tells the reader all they need to know to understand why and how we all should oppose the villains of the planned COVID pandemic. Most refreshing is Saxon's acknowledgement of our need to once again become one nation under God as we fight the war against all tyranny. I have nothing but praise and respect for these great truth tellers.

Sally Saxon, JD and her co-authors Dr. Deborah Viglione and Dr. James Thorp have created the modern-day Merck Manual for all things COVID, with a particular emphasis on the vaccine. This thoroughly researched, fact-

filled book should be incorporated into the curriculum of physician training programs and required reading for all health care providers. Despite the scientific subject matter, the information is presented in a straight-forward, easy-to-read manner, making it appropriate for a wide audience, and I have no doubt it will serve as a resource in the legal arena for actions taken in the wake of the pandemic. I highly recommend this to anyone needing facts to back up their arguments; buy it as a present for your contrarian relatives and propose a debate!

This is a book the entire world needs to read. The lipid nano particle, mRNA technology is a dangerous platform for any “vaccine,” and has failed miserably. This book beautifully highlights many of the reasons and data that support this conclusion. It tackles many of the reasons we cannot allow this platform to become the strategy to prevent disease, and why we need to think more critically about what we put into our bodies.

As we collectively consider how to navigate both our near and distant futures, living through global medical tyranny and mass deception these last several years, there are two in whom I put 100% trust and faith in: Drs. Deb Viglione, and Jim Thorp. Sally Saxon, JD has held nothing back in this fascinating account and review of the lies perpetrated on humanity that we have come to know as COVID-19. Get ready to learn in this book what to expect as we move forward with our lives!

— DR. BRYAN ARDIS, D.C.

As a person who has the expertise to be able to run the largest laboratory and hospital billing operations in the country, I find it astonishing how much the data has been manipulated by the very powerful people entrusted to maintain the Vaccine Adverse Events Reporting System (VAERS). This book is the first to memorialize the nuanced details of this great pharmacovigilance tool, and how it is being manipulated. Saxon, Viglione and Thorp have revealed corrupted tenets, namely, the fact that only *initial* reports of vaccine-injured people are made public, and updated reports to

VAERS reflecting their subsequent death are *not*. The knowledge and wisdom contained in this book are a gift to humanity. This read is clear, concise, authentic and shocking!

Smart, intelligent and brilliantly put together, a must read for anyone on the front lines of this Scamdemic. The authors have given us a no-holds-barred analysis of what happened and is continuing to occur as opposed to what the government and mainstream media would want us to believe.

This book is a must read for anyone who is new to the covid vaccine debate or for those who want all the information documented in one place. This book shows this is a war between good and evil, but it does not leave you without hope. It invites you to join the warriors, many of which are in this book. Thank you, Dr. Viglione and Dr. Thorp for being physicians on the frontlines of this war. And thank you, Sally, for working with these two heroes of mine doing the hard work putting this well-researched and referenced book together and for writing about the good news of the “Great Physician.”

Drs. Viglione and Thorp are the real deal. From the beginning, when it was costly and risky to oppose the Narrative, these courageous doctors were asking the tough questions and pointing out all the Emperor’s wardrobe malfunctions. Along with lawyer Sally Saxon, their fascinating and informative book gives you a front-row seat to the ‘real’ pandemic. Buckle up.
