

Action #1 - Get Big

Welcome back. Thanks for sticking with me.

So far, I've succinctly stated The Problem: God's judgement on America for Our many sins, including laziness and sloth...

And I've identified the bullseye: Constitution Enforcement in every county of the Republic to begin superintending Our elected servants.

And I've revealed that the Constitution gives Us the capacity, through two built-in tools, to see to its enforcement.

In this video, I'll talk about the first of the two current Action steps that, as We continuously entrust them to God, are demonstrating Our civic repentance and are preparing Us to stand those two tools up in Our counties.

Action #1 can be stated in two words: Get Big.

I'll talk about Action #2 in the next short video but let me just mention here that Actions #1 and #2 prepare and position us to execute Action #3 which will have Our memberships in front of their county councils across the Republic.

To maximize Our effectiveness in the kick-off of Action #3, We need to amass proportionately large Tactical Civics™ memberships in numbers of counties situated in strategically chosen States around the Republic. Hence, Action #1: Get Big.

You may have picked up on my use of the term "proportionately large" in reference to Our county memberships. That is to say, that Our target membership number for each county is one half of one percent of the population of that county.

Let me illustrate with a couple examples.

In my state of Kentucky, our Jefferson County members will need to hit a target of 3,900. Ouch! That's a lot! For them, the mandate to Get Big will be a lot of work and a long-term project. But wait.

Here in Kentucky, the target Tactical Civics™ membership number for 67% of Our counties is under 250 people. Say that again. Slowly.

In 67% of Kentucky counties, Our target membership number is under 250 people.

In those counties, the need to Get Big is conceivably a much more bite-sized proposition. And whereas We are undertaking Action #1, right now, in over 1,650 counties across the Republic, it is true that many of those counties will be the ones where, strategically, We will Get Big first in preparation for Planned Action #3.

But join me in the next short video to learn about Our other current Action - #2.
