

Are We There Yet?

Wow. Has the realization hit you yet... that even though We have Seven Planned Actions, once We successfully accomplish the first three that I've just outlined for you, We will have come light-years from the days when D.C. organized crime was able to transgress Our Constitution with impunity.

Once We The People have re-established Ourselves, collectively, as The Boss, via Grand Jury and Militia in the counties of the Republic, We will exercise superintendence with God-given authority.

So, be encouraged, knowing that success with Actions #1, #2 and #3 will have placed that high standard of capacity, Constitution Enforcement firmly in Our sovereign hands.

Having come even that far in Our ultimate quest for total restoration of Our Republic, We will begin vigilantly arresting the criminal cartel; yes, Our criminal servants, and bringing them to account.

Now, just imagine what even that degree of change will do for Us as We move to Action #4: Get Ratification. Get Small Districts. Get Representation.

Almost certainly, you're now asking: **What's this about?**
Let's find out.
