

## Action #2 - Get Educated

Once again, the two needful **Actions** currently underway here at Tactical Civics™ are **Actions #1 & #2**.

**Action #1** is to **Get Big**. To amass proportionately large Tactical Civics™ memberships in many, many counties.

**Action #2**, also being executed as We speak, is to **Get Educated**.

An enormous part of why **We The People** have not yet **kept** Our Republic is, very simply, due to ignorance. By design, we have been kept in the dark about certain things in Our history. It's not that the facts were unavailable, but We have certainly not been taught correct civics by the government-operated school system that's been in place illegally for generations.

When was the last time you remember being taught, or even told, that We The People are the sovereign over this Republic? The fact of the matter is there was a very good reason for heading the Constitution with those three monumentally majestic words: **We The People**. The reason was and remains this fact: **We are the Boss**, even though we've abdicated that duty... until now.

We must, today, learn the history that brought **We The People** to the point of Our independence from the English tyrant; We must continue from there to study and know the convulsions that brought Us to the crafting and ratification of Our highest human Law.

Let Us also be diligent to learn the **TWELVE** proposed Amendments that immediately followed and how the most critically needed of those, seemingly miscarried; and yet survives today, awaiting Our **Action #4**. Yes, for Our effectiveness as the **Boss** to be realized in **Action #3**, We must undertake a wholesale RE-education from which a repentant remnant of **We The People** emerge knowing, among many other things, the following, for example:

**1. The Lord Jesus Christ is the High King of heaven and is the ultimate Sovereign over all mankind.**

**2. We The People** means all of Us together who are **WILLING** to **ACTUALLY** do Our civic duties, of which voting is only a **SMALL** periodic obligation.

**3. Anything downstream from the Constitution that purports to be "law" but is repugnant to (or in conflict with) the Constitution is no law at all, and never was. Void.**

By the time **We The People** move ahead with **Action #3**, Our county memberships will be proportionately large and **UNIGNORABLE** by Our elected servants. Hence, the necessity to **Get Big**;  
And **We The People** will know Our critical history and civics. Hence, the necessity to **Get Educated**.

I invite you to meet me in the next video to unfold for you **Action #3 of seven**. See you there.
