

# How to Use Your Home Style Archetype Score Sheet

## Welcome to Your Home Style Journey!

This printable score sheet is your companion as you explore your unique approach to creating a beautiful, authentic home.

### How it Works:

- **Read Each Question** - Take your time with each scenario or prompt in the quiz. Let your instincts lead - here are no wrong answers!
- **Pick Up to Two Answers** - For every question, select the answer (or two answers) that feel most true to you. There's no benefit to selecting more than two; it often leads to confusion. Be gentle but strict with yourself, and listen to where your heart is leading you. 
- **Score as You Go** - Each answer has a code (EE, GG, II, MM, RR, SS, TT). Simply mark a point in the column for each code you select.
- **Tally Your Totals** - Once you finish all questions, add up your points for each archetype column. Your highest score is your dominant Home Style Archetype. If you have two close scores, you might be a beautiful blend of styles - that's perfectly natural!

### What's Next:

After scoring, follow the link to access your full results and discover more about your unique archetype(s). Explore your personality, enjoy curated mood boards, discover insider styling techniques, and get expert advice to bring your authentic home style to life. You'll even be introduced to designers whose work closely aligns with your archetype. You're in for a wonderful treat!

### Tip:

You can retake the quiz as your style evolves, or use a fresh score sheet for each property or project.

ENJOY!
