

the greater the points

HOW DO I GAIN POINTS?

Present your membership card when treating yourself to something delicious in The Gardens, sipping coffee at the Cafe, enjoying a beverage at our Bars, or even grabbing your favourite drinks at the Bottle Shop. For every dollar you spend you'll earn a point. When you're feeling lucky and trying your hand at our gaming machines, you'll still earn one point for every ten dollars you play with. And that's not all! – every tier comes with its very own DAILY BONUS POINT MULTIPLIER – watch the points pile up! Just take a look at your tier's multiplier to find out how many extra bonus points you'll get for each purchase!

HOW CAN I SPEND MY POINTS?

You can use your points for purchases anywhere in the Club, for dining, beverages or Bottle Shop! You can also purchase GRSL Community Cash which may be spent at local participating outlets. And here's the best part – there's no limit to how many times you can use your points, and it won't change your tier level.

WHAT IS MY TIER LEVEL?

We have five different tiers. These tiers are determined by the points members earn through their food and beverage purchases as well as their gaming turnover. Any additional points received are designated as BONUS POINTS and do not play a role in determining your tier. You can check your tier level on any membership kiosk, point of sale, gaming machine or ask one of our friendly staff. Tier levels are reviewed on the 1st of every month, allowing members the chance to move up to a higher tier during this evaluation. However, it's important to note that members can only be moved down levels twice a year, specifically on January 1st and July 1st.
