Phlebotomy Program

TIMELINE: 165 hours

MODALITY: Hybrid

OVERVIEW: The Phlebotomy Technician Diploma Program offers foundational training in venipuncture and blood specimen collection. Participants receive theoretical knowledge and hands-on practice to meet the National Center Competency Testing requirements to pursue national certification as a Certified Phlebotomy Technician (CPT). By the end of the program, students will be equipped with the basic phlebotomy skills needed for an entry-level Phlebotomy role.

Must be at least 18 years old. Experience is not required.
