Hello,

Safe, effective and legal plant medicine supplements are exploding in popularity right now.

After helping over 200 brands formulate, develop and launch their products, we're looking to build our next round of strategic growth partnerships.

Our formulas are expertly crafted to provide effective dosing that your customer will feel and benefit from.

We have experience in shipping large volume orders all over the world, and our minimum order quantities are set to help you get your first order to the marketplace *quickly*.

If you have a vision for growth and you align with our mission to help more people safely access nature's pharmacy, we should talk.

To Your Success,

Bob Johnson

Join the Booming Supplements Space

Let us help you turn that great health and wellness product idea into a successful reality.

Custom Capsule Consultants (CCC) provides entrepreneurs and brands in the growing supplement industry with best-in-class manufacturing services, end-to-end product development, custom formulations, white-label and private-label products.

We're your trusted partner in creating quality products with hemp and other **cutting-edge ingredients** that succeed on the shelf and help better people's lives.

Why Work with Us?

When Custom Capsule Consultants takes you on as a client, we're not just a manufacturer, we're your consultant, trusted guide, and partner fully committed to your success.

CCC is well-versed in the cutting-edge products and trending ingredients (softgels, gummies, mushrooms, terpenes, hemp, and other popular nootropics) that today's consumers are seeking.

We work with wholesale, private label, and white label manufacturers. With a full range of services within each category, we'll develop custom plans within your budget to help you achieve your goals.

We simplify the process, troubleshoot the roadblocks, and take care of the hard stuff for you.

We're veterans in this space.

With more than 40 years of cumulative experience working with hemp-derived extracts, our team offers you science-backed intel, pharmacology and a track record of success in the supplement and hemp product spaces. Our clients have regular access to our CEO, Robert Johnson, who is a pioneer in hemp-derived supplements and product innovation.

We're proven innovators.

From our new heat-resistant gummies and to leak-proof vegan softgels, our team is constantly developing client solutions that increase our supplements bioavailability, longevity and durability. Our engineers have developed cutting-edge concentrate technology as well as processes that increase product shelf life and reduce degradation. We relish new challenges, and pride ourselves on creating supplements that break new ground and actually work for the consumer.

We handle projects large and small.

While we're well-equipped to handle large-scale manufacturing and production, we fulfill smaller product runs (as low as 30,000 units) compared to the typical minimum order quantity of 300,000 units. Our pricing and MOQ lowers the barrier to entry and encourages new product development from small businesses.

We design custom formulas, as well as licensing our own tried-and-true formulations.

We can combine hemp-derived extracts with vitamins, terpenes and other synergistic ingredients to create a unique formulation that fulfills your vision—or, you can source one of our private label formulations developed in-house.

We provide turnkey capabilities.

From packaging and e-commerce to co-packing, labeling and logo design, we support you at all stages, from ideation to product distribution. Our merchandising solutions and simple payment processes work right out of the box.

We set you apart from your competition.

In an increasingly competitive market, our formulation guidance, design strategies, and marketing solutions ensure your product stands out.

Let's develop a custom plan within your budget to help you achieve your goals and make your vision a reality.

“Great team to work with for softgels. Truly masters of the craft. From low entry moqs to complex formulas specifically developed for us, they can handle it with a breeze. End product arrives to us fully packed, branded, sealed & ready to sell. Highly recommended.”

Liam Burns

CEO of Bearly Legal Hemp

“Robert came into my store when no one else would at the beginning of the pandemic. I was skeptical of softgels at first, but now we have them under our own in-store brand!”

Stu Meyer
Owner of CBD Comfort Zone

“Steven and Robert are professional and super helpful. They have extensive experience and great knowledge of the industry. Would highly recommend working with them.”

John Murray
CEO of Sustainable Innovations/Buckbee Weed

Softgels

Industry-leading vegan capsules that will set your brand apart.

WHY SOFTGELS?

- ✔ Softgels have a higher perceived value than 2-piece capsules
- ✔ Vegan softgels made with tapioca starch (same ingredient as boba in boba tea)
- ✔ Heat-resistant and high PH helps product survive stomach acid and breakdown in the large intestine
- ✔ Over 25 off-the-shelf products available including the latest popular THC isomers
- ✔ Formulations with traditional supplements that work the first time and every time
- ✔ Create your own custom softgels
- ✔ Available in custom colors and sizes

AVAILABLE IN

- ✔ Mushroom Extracts
- ✔ Kratom Extracts
- ✔ Hemp Extracts
- ✔ Traditional Vitamin Supplements
- ✔ And much more!

Frequently Asked Questions

Q: What are your minimum order (MOQ) quantities?

A: You can find specific MOQ details on each product page.

Q: What are your average lead times?

A: For “on-the-shelf products” we can ship in as little as one week, depending on your label requirements.

Q: How do I get a price for my custom formulations?

A: YES! We love helping our clients formulate and launch their products. The best way to get this ball rolling is to schedule a call with us from our customer support portal. We like to learn about your ingredients, your goals, and your vision.

Q: Who owns the intellectual property of the formulations and labels that Custom Capsule Consultants helps us create?

A: You Do! This is simply part of our service to you as our client.

Q: Can I use my own ingredients?

A: YES! Use the customer support portal to get in touch so we can help you arrive at a winning formula.

Q: Is this legal?

A: We only sell to businesses that are either operating where no legal restrictions exist, or you have a license to sell in your community. Always check your federal, state, and local laws before ordering. While we cannot provide legal advice, we are happy to lend you our network of lawyers, contacts, and experts where appropriate.

Q: Can you help with packaging and design?

A: YES! Helping you create stunning, attractive, and easy-to-read packaging is what our clients love about us. Schedule a call with us today to learn more about our white-label and design service.

Q: What is the difference between white label and private label?

A: With white label, we provide proven formulas and ingredients and you provide a label design, or we can design it for you! Minimum order quantities apply. Schedule a call with us and tell us about your goals.

With private label, we collaborate on something completely unique to you. Let’s talk soon so we can build a custom quote with lead-time estimates.
