VoiceWise BioEnergetic Report

Executive Summary: This report is based on voice-based energetic wellness observations to provide education on patterns related to the energetic field. **By observing over 1,100 energetic wellness patterns,** it offers a snapshot of trends related to five energetic wellness pillars, energetic wellness concepts, and areas of energetic wellness. Additionally, it highlights areas that may be of interest for further exploration, offering perspectives on potential energetic wellness trends related to physical or emotional factors. This report is strictly for educational and informational purposes only and does not diagnose, treat, cure, or prevent any medical condition. It is intended to empower individuals to explore their energetic wellness from a new perspective.

Disclaimer and Important Information

This report is for educational and informational purposes only. It is not intended to diagnose, treat, cure, or prevent any disease or medical condition. The information provided in this report is based on observed patterns related to the energetic field at the time of the voice-based energetic wellness observation and is intended solely for energetic wellness education.

The observations in this report do not reflect physiological, biochemical, or medical assessments. "Energetic Wellness Patterns" refer to trends identified within the voice-based observation process and should not be interpreted as indicators of physical health, medical status, or disease risk.

The methods used to generate this report are not intended for medical use and have not been evaluated or approved by the FDA. Statements made within this report have not been reviewed or endorsed by the FDA and are not intended to diagnose, treat, cure, or prevent any disease.

The content of this report does not constitute medical advice, diagnosis, or treatment and should not be used as a substitute for professional medical care. Any references to body systems, organs, or wellness-related concepts of any kind are for general educational purposes from an energetic perspective and do not imply a medical evaluation, diagnosis, or condition.

All numerical values and interpretations provided are for illustrative purposes only and should not be taken as prescriptive guidance, dosage recommendations, or health directives. Individuals should always consult a licensed physician or qualified healthcare provider before making any health-related decisions, including changes to diet, exercise, or wellness routines, particularly if they have pre-existing medical conditions or are taking medications.

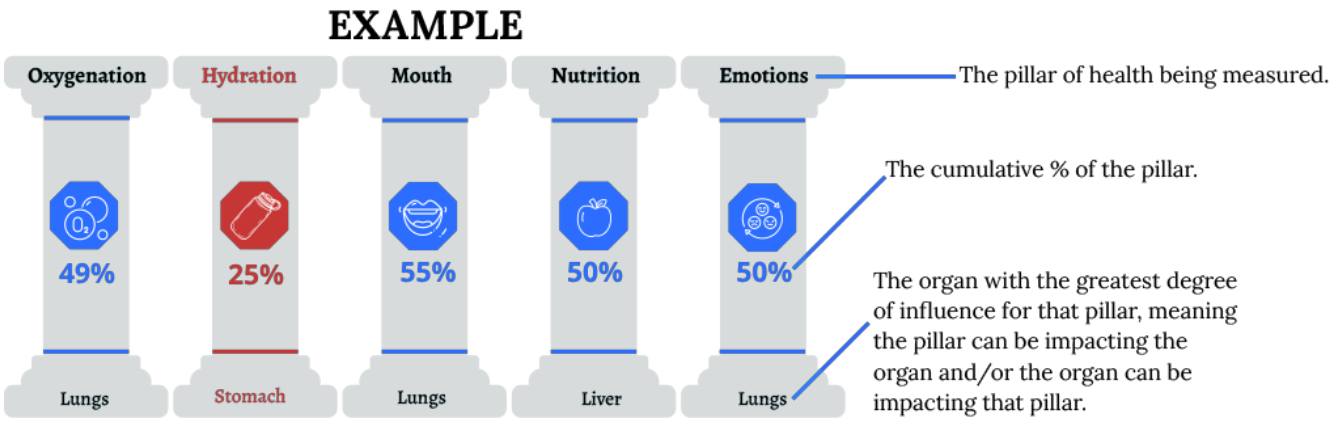
This document makes no claims, guarantees, or warranties—express or implied—regarding the accuracy, effectiveness, or applicability of the information contained within this report. Use of this report and any associated insights is voluntary and at the sole discretion and risk of the individual.

This report does not establish a doctor-patient relationship, and its contents are not intended to replace, modify, or serve as a substitute for professional healthcare services. For personalized medical advice or treatment, please consult a licensed healthcare professional.

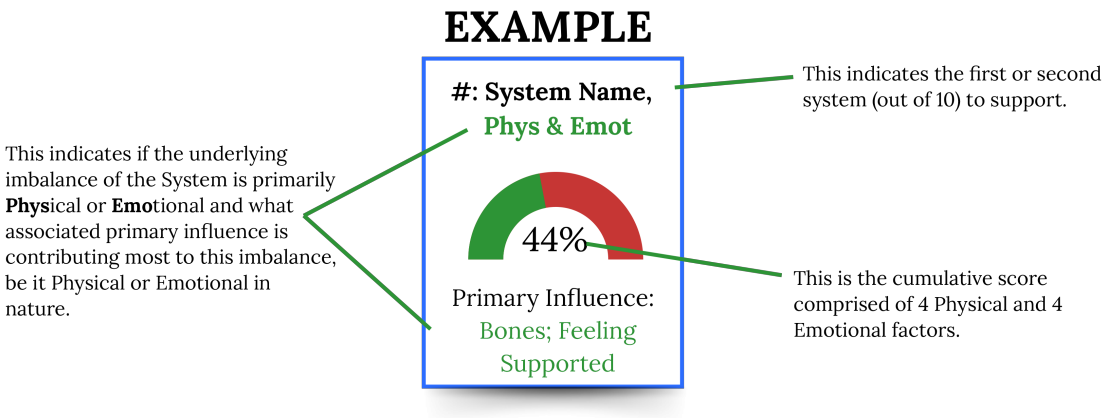
Report Terminology

HEALTH PERCENTAGES (%):
For purposes of this report, **50%+ is good**, so the items **below 50% are the ones to focus on supporting.**

PILLARS:
The pillar highlighted in RED is the one with the lowest cumulative % score based on your voice results. This report measures 5 Pillars of Health.



SYSTEMS:
This report highlights the 2 SYSTEMS with the lowest cumulative % for you, out of the 10 total Systems observed.



10 SYSTEMS OBSERVED

1. Circulatory
2. Digestive
3. Hormone
4. Immune
5. Lymphatic
6. Musculo-Skeletal
7. Nervous
8. pH Environment
9. Respiratory
10. Skin, Hair, & Nails

Report Terminology (cont.)

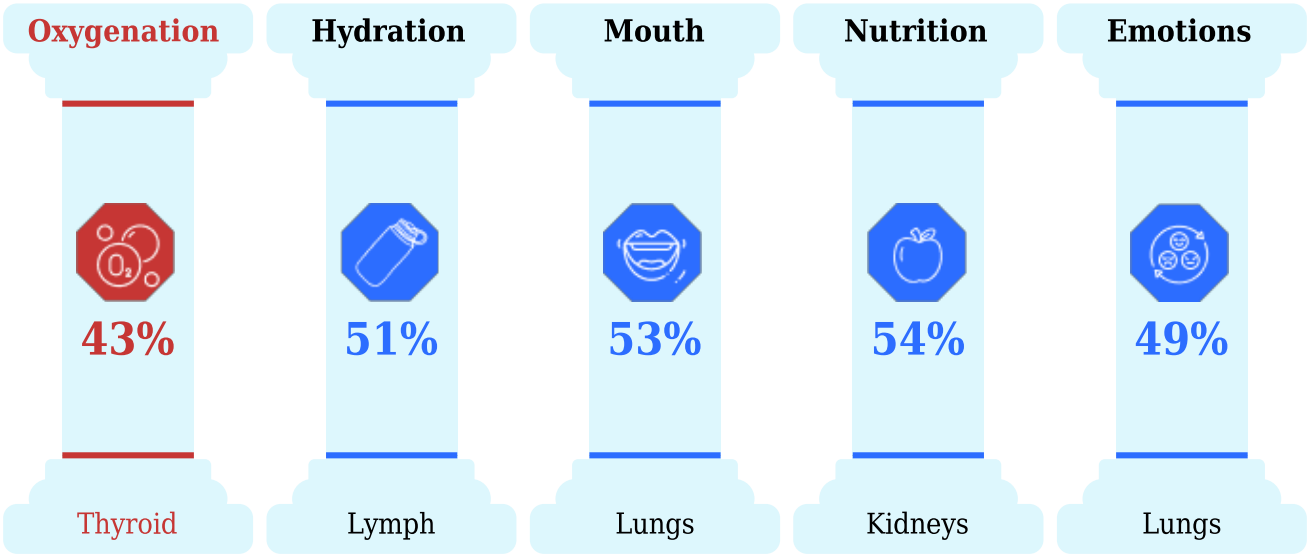
MOST IMPACTFUL FACTOR:
This is the **1 organ that appears to influence the greatest number of systems** at once. This report observes 30 organs, some of which are specific to male (M) or female (F). The specific Most Impactful Factor and general suggestions for exploring it, can be found on the last page.

30 ORGANS OBSERVED

1. Adenoids
2. Adrenals
3. Appendix
4. Brain
5. Breast (F)
6. Chest (M)
7. Cranium
8. Diaphragm
9. Esophagus
10. Eyes
11. Gallbladder
12. Heart
13. Kidneys
14. Knees
15. Large Intestines
16. Liver
17. Lungs
18. Ovaries (F)
19. Pancreas
20. Pineal
21. Prostate (M)
22. Sinuses
23. Small Intestines
24. Spleen
25. Stomach
26. Testicles (M)
27. Thymus
28. Thyroid
29. Tonsils
30. Uterus (F)

5 Pillars of Health

The Pillar of Health to consider exploring is **OXYGENATION**, which has the potential to influence the **THYROID**. A lack of oxygen in the thyroid gland can disrupt its ability to produce hormones that help control the body's metabolism. This can lead to problems like fatigue, weight changes, and mood swings, affecting the body's energy balance and overall well-being.



Consider exploring that **Lungs** has come up **2 *times*.** Review:

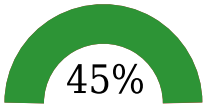
- How Mouth Could Potentially Influence the Lungs - **Click Here**
- How Emotions Could Potentially Influence the Lungs - **Click Here**

To learn more about how each organ you see connects to the associated pillar, then **Click Here** to go to the **Glossary of Terms.**

Systems of Health

1: Skin, Hair, & Nails,

Emot



Primary Influence:

Skin Immune Defense and Barrier Function-Need Boundaries

Possible Effects of Imbalances:

- Increased Skin Sensitivity
- Persistent Skin Redness
- Delayed Wound Healing
- Skin Inflammation
- Reduced Skin Moisture
- Frequent Skin Infections
- Dry or Flaky Skin
- Recurrent Rashes or Eruptions
- Increased Risk of Allergic Reactions
- Compromised Skin Elasticity

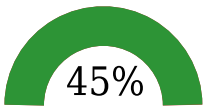
Potential Influences:

Pollution (Particulate Matter, Diesel Exhaust), Heavy Metals (Lead, Mercury), Excessive Hand Washing with Harsh Soaps, Chronic Stress Weakening Immune Response.

Explore your Skin, Hair, & Nails System at home by reading through this educational resource called, Skin Hydration, Healing, and Sensitivity Self-Check. **Click Here**

2: Musculo-Skeletal,

Phys & Emot



Primary Influence:

Cartilage;Sustain Resilience

Possible Effects of Imbalances:

- Joint Pain
- Swelling
- Grinding Sensation
- Tenderness
- Instability
- Stiffness
- Reduced Flexibility
- Limited Range of Motion
- Weakness
- Difficulty Moving Joints

Potential Influences:

Lead From Old Paint, High Sugar Intake, Low Vitamin C Intake, Excessive Alcohol Consumption, Inflammatory Foods.

Explore your Musculo-Skeletal System at home by reading through this educational resource called, Joint Movement and Crepitus Test. **Click Here**

Conclusion

For a list of ALL RESOURCES - **Click Here**

WEEK 1

Consider exploring the Most Impactful Factor: **Lungs (impacting the System(s) as follows: Circulatory & Respiratory).** Below are examples meant to inspire healthier habits and overall wellness:

- Consider beginning the morning with 5 minutes of deep breathing. Some individuals sip warm ginger tea while taking a brisk 10-minute walk outdoors to engage the body and mind. Afterward, some choose to perform gentle stretches, such as reaching overhead with alternating arms for 5 minutes. Some individuals finish with a facial steam using eucalyptus oil, gently inhaling the steam for 5 minutes.

WEEK 2

Now consider adding the exploration of Pillar-Organ Connection: **Oxygenation-Thyroid.** Below are examples meant to inspire healthier habits and overall wellness:

- Consider using progressive muscle relaxation. Some individuals tense each muscle while deep breathing for 5-10 seconds, starting with the fists, then moving up the arms, chest, and finally the neck.

WEEK 3

Consider also exploring the following System: **Skin Immune Defense and Barrier Function within Skin, Hair, & Nails.** Below are examples meant to inspire healthier habits and overall wellness:

- Some individuals explore repeating daily: “I nurture my sense of strength and resilience, allowing my body’s natural defenses to shine and protect me.”

WEEK 4

Finally, consider also exploring the following System: **Cartilage within Musculo-Skeletal**. Below are examples meant to inspire healthier habits and overall wellness:

- Some individuals explore drinking 8 ounces of bone broth daily, preferably homemade from organic chicken or beef bones.
- Some individuals explore repeating daily: "I am resilient and adaptable, embracing change with ease, allowing my emotional and physical support systems to stay strong and flexible."
