Core Competencies

Digital Transformation & IT Solutions Architecture

- ✓ **Cloud Computing Strategies** – Expertise in AWS, Azure, and Hybrid Cloud environments to optimize performance and scalability.
- ✓ **Network Design & Infrastructure Modernization** – Enhancing IT environments with advanced network solutions and next-gen infrastructure.
- ✓ **Data Analytics & Artificial Intelligence** – Implementing real-time analytics, Edge AI, and predictive modeling to drive business intelligence.

Advanced Cybersecurity Solutions

- ✓ **Zero Trust Architecture & Compliance** – Implementing Zero Trust security models aligned with CMMC v2, NIST 800-171, and ISO/IEC 27001:2022.
- ✓ **Threat Detection & Response** – 24/7 monitoring with Managed Detection & Response (MDR), Extended Detection & Response (XDR), and Secure Access Service Edge (SASE).
- ✓ **Security Operations & Vulnerability Management** – Proactive identification, assessment, and mitigation of cyber threats to safeguard sensitive data.

Regulatory Compliance & Risk Management

- ✓ **IT Regulatory Compliance** – Ensuring adherence to FAR/DFARS, HIPAA, GDPR, and other industry regulations.
- ✓ **Business Continuity & Disaster Recovery** – Developing resilience strategies to minimize downtime and recover from cyber incidents.
- ✓ **Risk Management & IT Governance** – Implementing risk assessment frameworks to protect assets and ensure regulatory compliance.

Cloud & IT Modernization Services

- ✓ **Cloud Transformation & Managed Services** – Public and Private Cloud solutions for secure and efficient digital operations.
- ✓ **Device as a Service (DaaS)** – Providing cost-effective IT asset management solutions.
- ✓ **IBM Power Systems & Enterprise IT** – Specializing in IBM Power Systems for high-performance computing and security.

Strategic IT Consulting & Assessment

- ✓ **Cyber Health Plans & Security Maturity Assessments** – Evaluating IT security posture to enhance resilience.
 - ✓ **Virtual Chief Information Security Officer (vCISO)** – Providing executive-level cybersecurity leadership.
 - ✓ **SIEM Audit & Compliance Readiness** – Ensuring security operations meet compliance standards and best practices.
-

Past Performance

✂ **NASA, US Air Force, National Reconnaissance Office, Lockheed Martin, and Boeing**
Provided Aerospace Network and Communications Support to enhance operational efficiency and security.

✂ **Paskenta Band of Nomlaki Tribe**
Designed data governance, data lake, and data warehouse architecture to help manage multiple entities within the Tribal government.

✂ **National Academy of Sciences**
Represented the US Army Division of Technology and Development, consulting on CMMC requirements and implementation processes for small businesses.

✂ **Colorado Department of State**
Chief Technology Officer – Leading state-wide technology innovation and modernization.

✂ **Tepa, LLC**
Directed IT modernization initiatives, including Azure Cloud migrations and achieving CMMC compliance.

✂ **United Launch Alliance**
Spearheaded network and infrastructure transformations to optimize performance and reliability.

✂ **WhiteWave Foods**
Architected disaster recovery solutions and modernized on-premises systems to cloud platforms.

Differentiators

★ **Proven Leadership** – Extensive experience leading large-scale IT transformations and cybersecurity initiatives.

★ **Woman-Owned Small Business** – Committed to excellence and fostering strong partnerships.

★ **Industry Expertise** – Over two decades of experience in IT strategy, implementation, and compliance.

★ **Agile and Scalable Solutions** – Expertise in modernizing systems for government and private sector clients.

Certifications & NAICS Codes

Certifications

✓ CMMC v2

✓ NIST 800-171

✓ ISO/IEC 27001:2022

✓ Microsoft Azure

✓ AWS

NAICS Codes

✦ **541511** – Custom Computer Programming Services

✦ **541512** – Computer Systems Design Services

✦ **541519** – Other Computer Related Services

✦ **518210** – Data Processing, Hosting, and Related Services
