About Us

DependableHands Home Care is dedicated to helping seniors, individuals with disabilities, or those recovering from surgery or illnesses, who do not require medical attention, continue to experience the richness of life in the comfort of their own home. Whatever your loved-one needs to remain independent in their own homes, our private duty home caregivers can help..

Home Sweet Home: There is no place like home. Most of the time family members are obliged to move out of the comfort of their homes because they can't take care of themselves due to their frailty or other medical condition that would make it unsafe for them to live alone at home. DependableHands Home Care services give our clients in need the option to live independently in the comfort of their own homes by providing them assistance with activities of daily living.

BENEFITS OF IN HOME CARE

Home care can help seniors maintain their independence and age in place. Independence is critical to our well-being and mental health as we grow older.

Home care allows family members to play an active role in their loved one's care. This involvement can help ensure that the care provided aligns with family values and expectations.

Being able to receive care in the familiar surroundings of one's own home can greatly enhance the overall experience for individuals.

Home care can provide family caregivers with time off to rest, relax, and take care of their own personal matters.

Home Care is personalized one on one care, allowing you to choose the services that fits your needs.

Home Care saves money because it costs less than other facility care. It can be customized to fit all budgets.

Home Care ensures safety, improves quality of life and promotes recovery.

Home Care reduced the risk of infection commonly found in care facilities.

Our Services

At Dependablehands Home Care, we offer a wide range of non-medical in-home care services to meet your needs.
