DO YOU SUFFER FROM ANY OF THESE SYMPTOMS

Sleep Problems

Low Energy

Reoccurring Illnesses

Eyes, Nose & Throat Irritation

Cold or Flu-Like Symptoms

Respiratory & Sinus Issues

Infections

Asthma

Skin Rashes

Digestive Problems

Headaches

Brain Fog

Inflammation

Anxiety

Depression

Are YOU Sick, or are YOU LIVING IN A SICK HOME?

Our Testing Diagnoses the Health of Your Home

- *Including:*
- Discover the Total Toxin Exposure in your home, not just mold.
- Identify Hidden Contaminants that May Exist
- You will receive A Blueprint of Clarity for Your Next Steps Towards a Healthier Home

YOUR DOCTOR

Wouldn't Expect to Get an Accurate Diagnosis of Your Health from Only One Test... The Same is True when Assessing Your Total Toxin Burden from Your Home Air and Water.

Endorsed by Doctors and Health Care Practitioners as the Most Affordable, Comprehensive Testing Systems, identifying potential environmental toxins contributing to unresolved health issues.

WHY LIMIT YOUR TESTING TO ONLY MOLD?

WE TEST FOR OVER

500

HEALTH-THREATENING HOME AIR TOXINS

AND

WE TEST FOR UP TO

100

TOXIC CONTAMINANTS IN YOUR WATER

DISCOVER IF YOU ARE LIVING IN A SICK HOME

The Pure Air Doctor Testing System™

Evaluates Your Exposure to Toxins,
Identifies Potential Sources,
& Options for a Healthier Home.

The Pure Air Doctor System™ *Samples Your Entire Home.*

- Professional analysis by Independent 3rd Party EPA and State Certified Laboratories.
- 48-hour DNA-based Whole House MOLD Testing detecting Mold in the Air and Mold on Surfaces.
- Detects Active Growing Mold...even hidden in your walls.
- Medical Grade ERMI and HERTSMI-2 Mold Surface AND Airborne Testing.
- Identifies why a low mold spore level can still be a mold problem.
- Complete Identification of 500+ chemicals and VOC's found, and the sources creating them.
- Identifies what chemicals specifically are from paint, carpeting, furniture, and cleaning products.
- Analyzes chemical exposure from building and construction materials.
- Tests contaminant exposure from recent renovations, or remodeling projects.
- Identifies toxins especially harmful to babies, elderly, or those with compromised immune systems.
- Identifies contaminants that create toxic impact to your pets.
- Confirms the effectiveness of recent, or past Remediation Projects.
- Determines what contaminants are being introduced into the home from outside sources.
- Tests for Radioactive Radon Exposure – The #1 Cause of Lung Cancer in non-smokers.
- Carbon Dioxide Test – A strong indicator of a home poorly ventilated and low oxygen level.
- Tests for Dangerous Ultrafine Particulates in every room.
- Temperature & Humidity - All rooms sampled. High humidity increases more mold potential.
- Identifies contaminants created by people and pet activity, versus home based contaminants.
- Identifies potential EMF exposure outside the home from Cellular, Microwave and Communication towers within a 3 mile radius.
- Identifies contaminants and harmful conditions due to inadequate performance of your homes furnace and air conditioning system(s).
- Determines the effectiveness of current filtration or purification systems.
- Comprehensive, yet easy-to-understand written reports.
- Video overview identifying problems found and solutions for corrective options.
- 30-day access to the **Pure Air Doctor "Ask the Expert"** weekly online consulting program.

More than Just a Test.

More than Just a Report.

Experience the **PURE AIR DOCTOR** Difference.

The *Pure Air Doctor*[™] System finds Active Growing Mold... Even Inside your Walls.

Every Home has Mold Spores... yet testing for only mold spores does not find the problem, or tell the whole story.

Scientific studies show it is critical to also test for:

- *Mold Chemicals*
- *Breathable Ultrafine mold, both on Surfaces and in the Air, using the latest DNA analysis methods, and*
- *A full spectrum of non-mold contaminants to understand your true Total Toxin Burden.*

The **Pure Air Doctor System**[™] measures your complete Indoor **Air Quality (IAQ)** and discerns if it may be a potential concern for those experiencing ongoing, unresolved health conditions. **Most** testing kits on the market only test for a limited amount of contaminants, or limited sample locations, which are not sufficient enough to detect the overall health of your home.

Our **Pure Air Doctor System**[™] test samples are 48 hours in duration, use *“Professional-Grade”* equipment that thoroughly **samples your entire** home. Our system also confirms the presence of active growing mold chemicals, mold in the air and on surfaces, along with over 500 other toxins. We also identify potential conditions that may be causing these contaminants to be there in the first place.

More than Just a Test.

More than Just a Report.

*Experience the **PURE AIR DOCTOR** Difference.*

How Long Will You Wait to See if the Air Your Family Breathes is Unhealthy, or Unsafe?

No other System available today can give you a more comprehensive and cost-efficient approach to determining the “True” Health of the indoor air quality in your home.

Plus, at no extra cost, you’ll get **“30-Day” Access** to the **Pure Air Doctor**[™] online Weekly *“Ask the Expert”* Program to get your questions answered regarding your report results, and the steps you could take towards a healthier home.
