## How to Determine Your Next Cycle Rate

### Posted Date:

If your rate is changing on your next cycle, it will be posted for viewing at least 30 days in advance of your bill cycle start date (Effective Date).

For new enrollments and product changes, your rate is captured at that time and may not match what is displayed.

If you are being billed for more than one cycle, each cycle will be calculated using the rate effective at the time of original billing.

To determine the rate you will be billed for your next billing period, please use the rate that is in effect as of the start of your billing period as shown on your bill.

3/4/2017	3/16/2017	\$0.0925
