

New Hampshire Next Bill Cycle Rates

How to Determine Your Next Cycle Rate

Posted Date:

If your rate is changing on your next cycle, it will be posted for viewing at least 5 days in advance of your bill cycle start date (Effective Date).

For new enrollments and product changes, your rate is captured at that time and may not match what is displayed.

If you are being billed for more than one cycle, each cycle will be calculated using the rate effective at the time of original billing.

To determine the rate you will be billed for your next billing period, please use the rate that is in effect as of the start of your billing period as shown on your bill.

Example		
Posted Date	Effective Date	Rate
3/4/2017	3/16/2017	\$0.0925
4/13/2017	4/25/2017	\$0.0854

New Hampshire Next Bill Cycle Rates

Eversource Energy NH - Electric

Variable rates are not based on market prices or some other identified price index and are subject to change without notice at the discretion of Ambit Energy. Ambit's prices are based on several factors, including, but not limited to, wholesale energy prices, costs to serve customers, Ambit's assessment of historic and projected supply and hedging costs, prior month's pricing, projected average customer bill amounts, and conditions in the electricity market. No price ceiling exists and no price floor exists. The variable rate also includes Transmission Charges and Estimated Total State Taxes, including the Gross Receipts Tax, but excludes applicable state and local Sales Tax. The variable rate next to the plan name displayed above is your rate for the first monthly billing cycle. Your rate may change from month-to-month after the first monthly billing cycle. Variable rates may change due to current and predicted weather patterns, retail competition, wholesale energy costs, fluctuations in supply and demand, industry regulations, pricing strategies and costs to serve customers among many factors. Because the rate may change from month-to-month, you will not know the rate being charged until you receive your bill. It may take one or more billing cycles for a price variation to become effective. You can review the upcoming variable price per kWh 5 days in advance of the effective date of the price (residential or commercial) at ambitenergy.com or by calling (877) 282-6248.
