

Level Up Leads

IUL

Level Up Leads are generated from multiple digital platforms. Prospects are educated about life insurance and are expecting to be contacted by a licensed insurance professional.

DEFINITION

Level Up Leads are high-intent digital leads generated from various social media platforms and websites. Our IUL leads are educated about the benefits of a tax free retirement. These leads result in the sale of IULs, participating whole life policies, term life policies and annuities. All leads are TCPA compliant.

VALUE PROPOSITION

Level Up generates leads using videos and images. We show agents an example of the video ads that are used to generate leads. Our pricing is not dependent on your contract level.

TIPS & BEST PRACTICES USING LEVEL UP LEADS

Coaching with FinneyUp!

The FinneyUp Team are most familiar with Level Up Leads so any coaching specific to Level Up is greatly encouraged to invest in.

STOP means CALL...

When a lead replies to the automation "STOP", that is a great time to call the client. We have many sales that are documented when the client initially responded STOP to the automation because they did not want to proceed with any text messaging.

Business Card Graphic

We suggest that you send clients your custom agent graphic at the beginning of the appointment. Do not send your graphic while following up with your client, only when they are on the phone.

Level Up Sales Training

We suggest that you complete the Level Up sales training for the lead type that you purchase.

Video Appointments

Appointment show rates are normally 65-85%, if you tie it down properly. Do not attempt to complete a One Call Close on your Mortgage Protection, IUL, DFL/IBC or Annuity leads. You are the Busy Advisor, so schedule the appointment and build a connection via Zoom, Google Meet, etc.

Check-In Calls

The most successful agents using Level Up Leads join the Level Up Check-In Calls. We urge agents to join because we show sample video ads to our clients.

Insurance Toolkits / Virtual Mentor / Navigator

We suggest that you get a subscription with Insurance Toolkits, Virtual Mentor or Navigator, so that you can underwrite while on the phone with your client.

Text As Sam (Assistant), Call As Yourself (Advisor)

We suggest that you text clients as the Assistant Sam. The thought process of this is that it eliminates the clients from asking you questions regarding pricing, etc. This allows the Advisor to be portrayed as busy, even though it is you.

Local Presence Dialers

We suggest that you use dialers with Local Presence capability. Local Presence capability allows your outbound phone number to match the area code closest to your client. This will increase your contact rate by 30-40%. Using your cell phone and your CRM phone number is not enough. We suggest using Ninja Dialer, Level Up's Power Dialer or any dialer that has the Local Presence capability.
