

Funding Ready Checklist

The following checklist outlines the standard requirements for starting the funding process for anyone seeking business funding through business credit cards-the sole type of funding we teach. By following our credit enhancement blueprint, you can achieve a 700+ FICO credit score, which is crucial for qualification.

Since business credit cards rely heavily on personal credit, use this checklist to assess your eligibility. Your LLC structure is the next critical component of the process, which we will cover in the next phase.

Checklist:

- 700+ FICO credit score.
- No negative accounts (Collection, Charge-offs, Late payments, etc.)
- At least one personal credit card that's \$3,000 or higher.
- Utilization between 1-10% per card.
- Less than 3 inquiries across bureaus within the last 90 days.
