

# I WENT FROM BEING AN OVERWORKED AND UNDERPAID THERAPIST TO A 7 FIGURE BUSINESS OWNER AND YOU CAN TOO!

If you're a therapist who is struggling to **make more money**, **impact more lives**, and have **more freedom, flexibility**, and **security** in your life, then listen up. I am going to show you, how you can implement coaching and my modern marketing master plan to do exactly this.

I'm Carly Hill, licensed clinical social worker, seven-figure business mentor for therapists, bestselling author, and your new trusted guide to help you add coaching, protect your license, and outgrow the office.

What if I told you that there is a way that you could continue doing the work that you love, but not at the cost of sacrificing your freedom or your bank account. A way where you could stop fighting insurance companies, seeing back-to-back clients, worrying about retirement, kids college, vacations, or just having a minute to yourself for more self-care. Well, there is a way. And if you're anything like me....

You're probably sick of trading dollars for hours & only getting paid when your butt is in the therapy chair, right? You're smart. You're ambitious. You're a therapist.

You're good at what you do. You love helping people, but you're ready to work smarter, not harder...but you can't seem to outgrow the office, right? There's so many floating pieces. You don't know the exact steps to take.

**Let's be honest.**

The accountability isn't there. So what I want to show you is how you can add **one signature coaching program, triple your income, and earn back your freedom**, all while simultaneously continuing to transform clients' lives.

Now I know what you might be thinking right now. Everyone and their mom is a coach. The field is too saturated.

Maybe you just don't even want to call yourself a coach. You feel like it's a downgrade when you worked so hard for your license. And I hear you.

I used to roll my eyes big time at coaches, but I was also curious... like what made them so successful? And what do they know that we don't know? And how can we too, as therapists do this? Here's the thing. Coaches can't be therapists, but therapists can be coaches.

We actually make the best ones. And this is a bonus identity that we get to have. In my opinion, us therapists should be running this \$20 billion coaching industry.

We should be on the forefront. It's not time to throw the towel in. It's just time to help people in a different way.

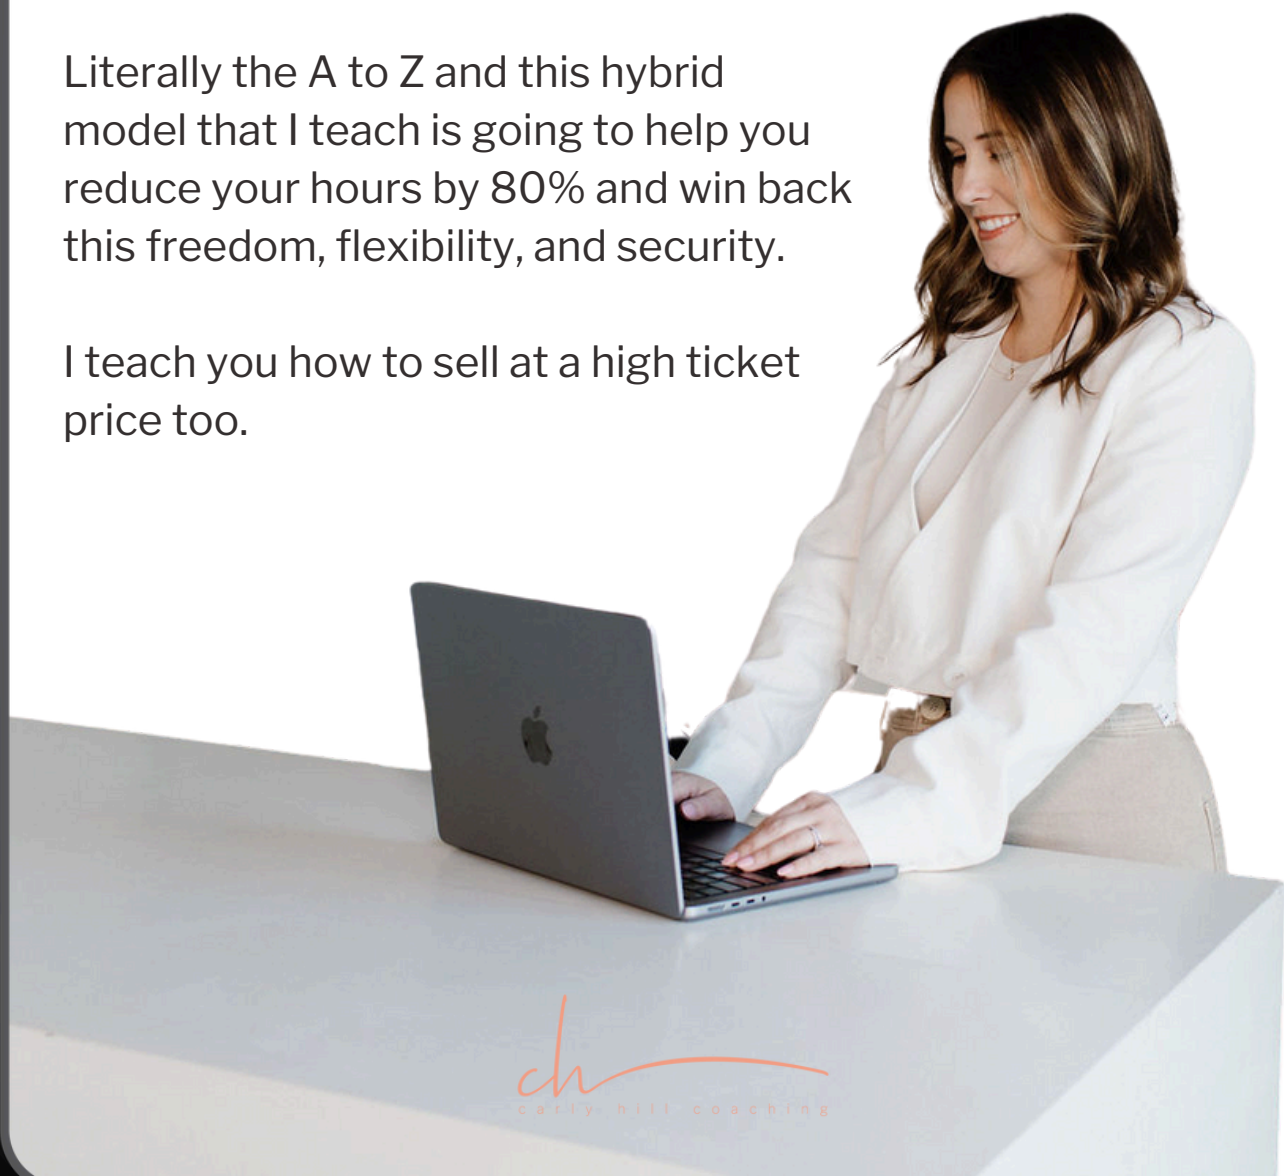

The coaching industry is rapidly growing. The time to get in is definitely now, and we will help you stand out. In the past three years alone, my team and I have personally helped over 350 therapists successfully add coaching into their practice holding their hand every step of the way! Thousands if you count the DIYers.

And while I've been able to scale my own business to seven figures and help others do the same, I was literally in your exact shoes beforehand.

My team and I would be honored to personally help you create, market, sell, and deliver your very first signature coaching program from scratch.

Literally the A to Z and this hybrid model that I teach is going to help you reduce your hours by 80% and win back this freedom, flexibility, and security.

I teach you how to sell at a high ticket price too.

So starting off \$1,000 to \$2,000 and then it's upwards from there! I take pride in not being salesy too. I actually created my very own sacred soul aligned selling blueprint. My clients told me to put it in the program twice because it was so good for this exact reason.

Now I know creating a course may seem daunting. It may seem overwhelming..But

I'm going to walk you through it. Step by step.

I know we didn't learn any of this business stuff in school, but you're going to pick it up really fast. I promise. And the amount of support that my team and I provide is unmatched. Literally support every single day. We are IN your business with you.

**Not only am I going to teach you how to create your own coaching program. I'm also going to teach you how to protect your license. Super duper important.**

And I'll teach you how to get only your ideal clients into your coaching program. Doesn't that sound amazing? Only working with your ideal clients.

They light you up to work with AND you are getting paid high ticket dollars. You're not trading dollars for hours anymore. You're working smarter, not harder.

**This is all what's going to happen when you follow my modern marketing master plan.** And it's actually super fun. I have realized over time how good clinicians are at building these connections and bringing clients in once they understand how to market properly. Rapport is our middle name, right? So it's just plug and play into my proven system structures scripts.

**I give you everything.**

**It's your life. We're talking about here. (freedom, flexibility, security)**

It's other people's lives. We're talking about here. So if you are intrigued, I've peaked your curiosity.
