Cycle Indicators

Model DCI-TO/DCI-L/DCI-D

DESCRIPTION

The DELIRON Cycle Indicator is a cost-effective and easy to install lubrication monitoring device. It has a custom machined stainless steel housing and a powerful internal magnet assembly built for industrial use. The Deliron Cycle Indicator is totally sealed and can accurately monitor fluid or grease systems. It can also be installed on any section or side of the divider block assemblies. The highly visible indicator has a snap-action movement which makes it easy for the user to see as well as determine the precise timing of each divider cycle.

FEATURES

- TAINLESS STEEL HOUSING
- FLUID or GREASE SYSTEMS
- LEFT or RIGHT MOUNTING
- SNAP-ACTION INDICATION
- TOTALLY SEALED
- EASY TO INSTALL
- ANY SIZE DIVIDER BLOCK SECTION

SPECIFICATIONS

- Application: Monitors Fluid(Oil)or Grease Systems
- Rated Pressure:6500 PSI
- Material:Stainless Steel
- Indication: Highly Visible Snap-Action Bright Orange

ORDERING INFORMATION

- MODEL DCI-TO.....Trabon O-Ring.....P/N# DL3070
- MODEL DCI-L.....Lincoln.....P/N# DI3072
- MODEL DCI-DDropsa.....P/N# DI3073
