

## After school revision timetable

- Our template after school revision timetable is designed to split evenings into small manageable chunks of 45 minute revision bursts.
- Some students will prefer shorter more regular revision slots, while others are more suited to fewer but longer revision slots – you’ve just got to find what works!
- We’ve provided a blank version so that students can decide on the timings that suit them best.
- Our advice is start revision early! It’s never too soon to start revising for GCSEs – significantly reduce the pressure of Easter holidays of Year 11 by starting now.

Good luck!
