The higher the trading volume, the more dividends. If the dividend is less than 30 USD, it will be rewarded at 30 USD.

2. Each recommender in a leadership position can apply for a birthday allowance once a year. (Birthday allowance: 100 USDT).

3. Recommenders in each position must lead team members responsibly. The team is prohibited from spreading rumors or negative information. Once it is confirmed that someone has spread rumors, the team will cancel all benefits after verification.

VOLUME DIVIDENDS

If you successfully invite 5 new friends to join, and each of them invests more than $300, you will be promoted to Level 1 Manager and receive a $100 promotion bonus. This means that your leadership and team development skills are recognized. Manager bonuses are paid three times a month, on the 9th, 19th and 29th. Bonus rewards are a direct return on the successful growth of your team, and your income will continue to increase as you add more team members.

The dividends are divided according to different levels as shown below.

1

1. When the team meets the dividend conditions, each recommender can apply for dividends on the 9th, 19th, and 29th of each month based on the trading volume of his or her downline members (the downline members' deposits must be greater than 300 USDT). The higher the trading volume, the more dividends. If the dividend is less than 30 USD, it will be rewarded at 30 USD.

2

When the team reaches 25 members, you will be promoted to LV2 manager and receive a promotion bonus of $300. In addition, you will receive a 1% dividend on the team's trading volume every 10 days, three times a month.

3

If your team reaches 1,000 people, you can upgrade to LV5 manager and you can get a promotion reward of 5,000 USDT. [1,000-person team: daily trading volume 1,000*100=100,000 USD, manager's 10-day trading volume 1 million*3%=30,000 USD, equivalent to the annual salary of an ordinary worker] success rate. (This is calculated based on the number of team members, for example, the trading volume of 1,000 and 3,000 investments is different)

Dynamic Signal Rewards:

- When you invite a friend to invest more than $500, both you and the new member will receive 6 bonus dynamic trading signals.

  In addition, you can participate in 6 signal transactions and receive 2 dynamic signals at 2 pm and 2:30 pm, and another 2 dynamic signals at 8:30 pm and 9 pm every day.

- If you invest $1,000, 2 days of signal trading can help you realize a profit of $65.

  If you invest $3,000, you might get $195 in profit.

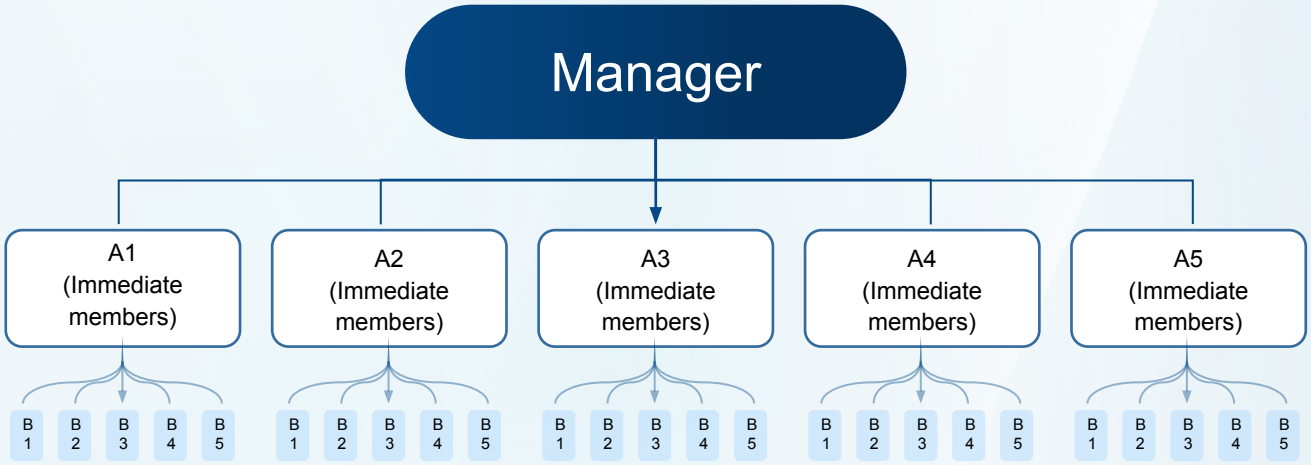

It should be noted that the dynamic trading signals provided by the referrer are proportional to the initial deposit amount of the new member, that is, the trading volume accounts for 1%. If you are unable to participate in 2-day signal trading, you can contact me or my assistant for more details and accumulate your transactions.

Dynamic Signal Return

As long as you invite friends to join BG, your daily earnings will be very high.

Signal trading is just our basic income, while team income allows us to achieve greater success in the future. A good investor must know how to broaden their perspective. Investment depends on developments over the coming years. I joined the BG Wealth Sharing Team in 2022. From starting as an individual to now becoming a regional spokesperson, my journey from not knowing how to operate at first to achieving success has been made possible with the support of Professor Stephen. I hope you can create your own team just like I did and become wealthier in the future

VOLUME DIVIDENTS

The Wealth sharing Foundation is the entrepreneurial starting point for each member!

1. With you as the core point of the team manager, the constant cascade of replication into Foundation Advocate positions will grow in multiples of 5!

2. The first tier of 5, the second tier of 25, the third tier of 125, the fourth tier of 625, the fifth tier of 3125, and so on, when your team reaches the level of 10,000 people, you will be able to earn more than $100,000 per month!

3. According to the concept of five people into a group, management and guidance of each layer of personnel, teaching the correct investment concept, team win-win cooperation concept, common development team, to help each layer of members are able to earn their own a stable income!

duplication is an unsurpassed entrepreneurial myth!

How We Complete the Trades

Let's assume we start with $500, make two trades a day of 1% value, and earn at least $6.50 a day on average. This brings our total to $506.50. On the second day, we earn $6.58, so the profit for two days is $13.08.

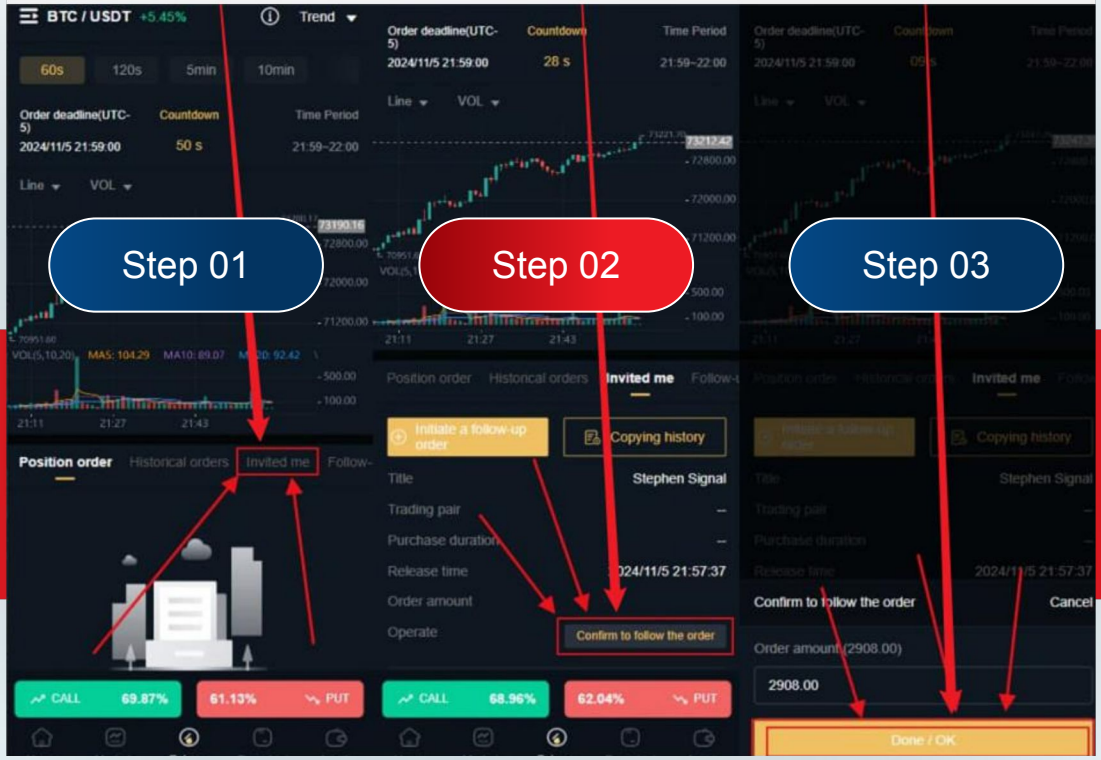

HOW WE FOLLOW THE TRADING SIGNALS

We follow the trading signals by going into the Invited me page and pressing the' Confirm to follow the order button within the DSJEX app.

There is no manual selecting of the amounts or types etc., just simply press the one button to follow the trade.

1%

This automatically sets the correct product, whether it's a call or put and the 1% amount of our total balance,

WHAT IF THE TRANSACTION FAILS?

As we have a trading accuracy of up to 99.6%, it's very unlikely that a trade would lose, however if it does we go by a 5 phase plan to trade again for a higher percentage to cover any losses:

Funds	Phase 1	Phase 2	Phase 3	Phase 4	Phase 5

DYNAMIC & STATIC RETURNS

If you invite five new members within a week and deposit at least $500, you will not only earn at least $250 as an invitation bonus, but you will also successfully build your own team and elevate your team to the position of Junior Manager. Based on the number of team members, you will receive a total of three bonus rewards on the 9th, 19th, and 29th of each month.

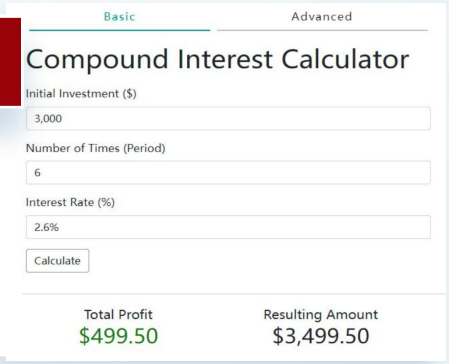

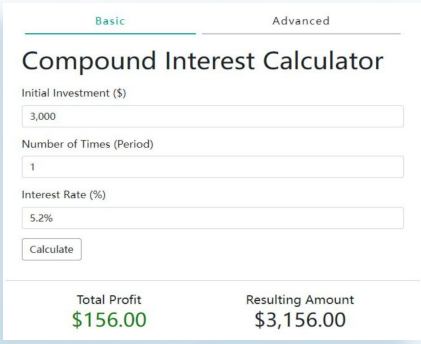

1.3% Daily Return

As everyone knows, BG Group offers two fixed signals, which provide investors with basic returns after joining. If your DSJEX account balance is $3,000, the daily returns from these two fixed signals would be $39. That is equivalent to what an average person might earn in a day or two, allowing you to enjoy stable returns every day.

Second: Daily Return

Many people do not understand how a 2.6% return works. Let me explain - We have 2 fixed signals plus 2 additional signals that enable us to achieve a 2.6% return . If you want to receive 3 additional signals, you need to invite new members to invest and join. The new members' investment must reach a minimum deposit of $500.

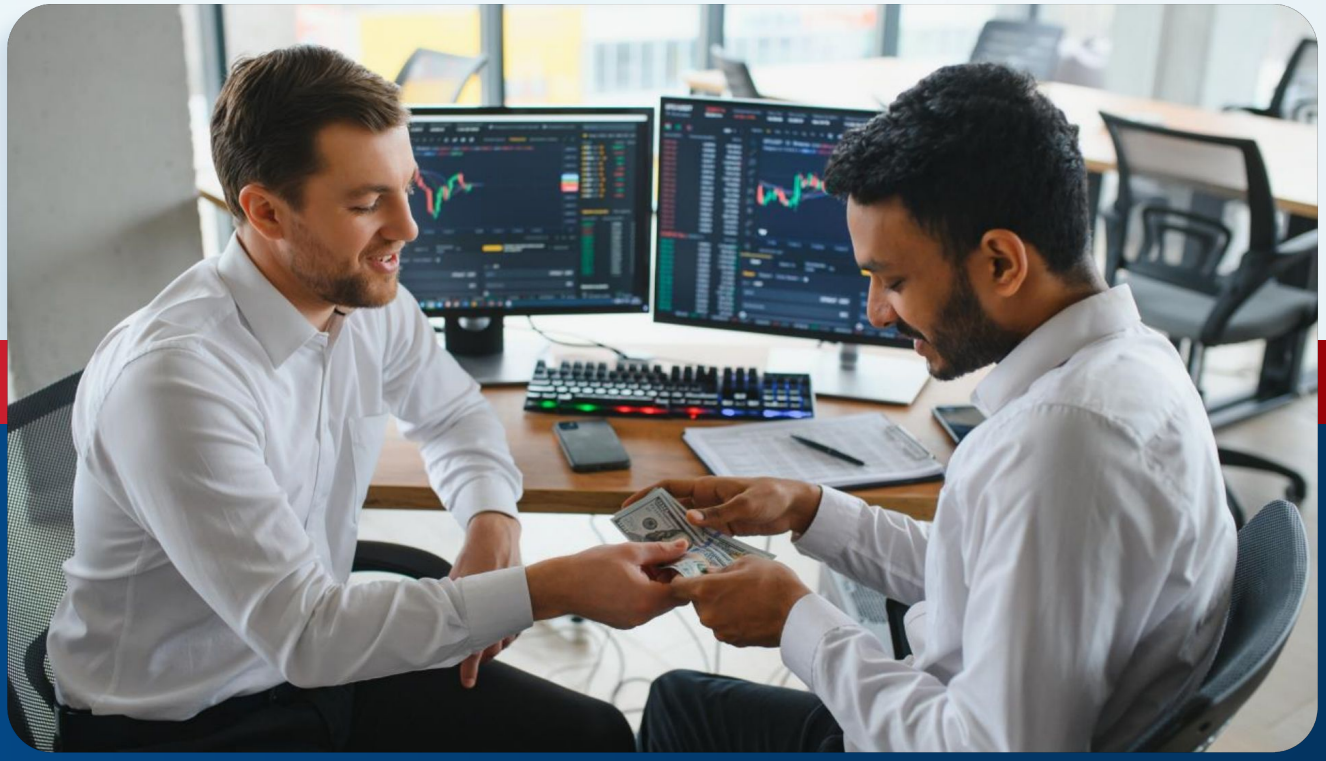

For example

if you have $3,000 in funds, you can receive 6 additional signals each day, plus 2 fixed signals from BG, making a total of 8 signals. The daily return exceeds 5.2%.

DYNAMIC & STATIC RETURNS

LET'S COMPARE THE DYNAMIC AND STATIC RETURNS YOU CAN GET BASED ON YOUR DEPOSIT AMOUNT AND YOUR REFERRAL BONUS.

Investing $500: Comparing static returns with dynamic returns over a period of 31 days.

Newly joined members can make an initial deposit of $500, and the inviter can receive a $25 referral bonus.
