

Full Stack Developer (Flutter, React, .NET Core)

Location: Edina, MN

About E2 Solutions

E2 Solutions Inc. is a growing software and services company in the supply chain industry. We provide a fun, casual, and flexible work environment where you get to work with smart, driven people on cutting-edge solutions. We implement a broad range of proven supply chain solutions to fit our customers' size, business strategy and appetite for growth. Our customers conquer the complexity of the supply chain thanks to our portfolio that includes software, automation, vision solutions, robotics, and material handling – plus the systems integration expertise to tie it all together. E2 helps to manage the supply chain as a competitive advantage.

Job Description

We are a leading supply chain software company seeking an experienced Full Stack Developer with a strong background in Flutter and React and some experience with .NET Core to join our team. You will be working on cutting-edge inventory management systems and our enterprise native application, Vision, which is designed to work on various devices, including smart glasses. As a Full Stack Developer, you will play a crucial role in leading our product development team and contributing to the success of our product implementations.

Responsibilities

- Design, develop, and maintain high-quality software solutions using Flutter, React and .NET Core for our inventory management system and Vision enterprise native application
- Lead and mentor the product development team, ensuring best practices are followed, and providing technical guidance on complex issues
- Collaborate closely with the product management, design, and QA teams to deliver new features and enhancements on schedule
- Facilitate Scrum ceremonies, such as sprint planning, daily standups, and retrospectives
- Manage version control using Git and ensure code quality through code reviews, testing, and adherence to coding standards
- Continuously research and stay up-to-date with the latest technologies and best practices in software development
- Address and resolve any technical issues or bottlenecks, ensuring the smooth functionality of our applications

Requirements

- Bachelor's degree in Computer Science, MIS, Engineering, or a related field
- At least 2 years of experience with Flutter and React, 1 year of experience with .NET Core
- Proven experience in developing and maintaining inventory management systems. Native apps, and enterprise web applications
- Strong knowledge of Scrum methodology and Agile software development practices
- Experience with Git or another version control system
- Excellent problem-solving skills and the ability to work independently as well as in a team
- Strong communication skills and the ability to effectively communicate with both technical and non-technical stakeholders
- Strong proficiency & keen eye for best practice UI/UX design & development. HTML and CSS.

Nice-to-Have Qualifications

- Experience with smart glasses or other wearable technology development.
- Familiarity with other programming languages and frameworks, such as JavaScript, TypeScript, C#, Swift/Xcode, or Android Native
- Database administration familiarity with MS SQL and tools such as SSMS
- Experience working in the supply chain or logistics industry

Benefits Package

- Competitive salary and performance-based bonuses
- Comprehensive health, dental, and vision insurance
- Generous paid time off and flexible work arrangements
- Opportunities for professional development and career growth
- Collaborative work environment with a supportive team

How to Apply

To be considered for this position, please submit your resume and a copy or link to your portfolio showcasing your work in Flutter, React, or .NET Core to careers@e2.solutions. Be sure to include examples, if any, of your experience with inventory management systems or any other enterprise applications. We are excited to welcome a talented Full Stack Developer to our team and look forward to reviewing your application.
