MISSION-READY RETIREMENT & LEGACY STRATEGIES

RANDY BRACEWELL

Randy Bracewell, our Founder and CEO, served 21 years in the US Navy Nuclear Power Program serving aboard the USS Alaska (SSBN 732) Blue Crew, USS California (CGN 36), and the USS Carl Vinson (CVN 70). Coming from the military ranks gives him a unique perspective on what Financial Planning means to people in his shoes.

After 21 years in the US Naval Nuclear Power Program, Randy embarked on a career in the private sector. Randy has a Masters in IT and has had data center management roles at PG&E and Sandia National Laboratories. A chance meeting with Merle Gilley and Jenn Seeger led to his discovery of his passion for Finance. They taught him things he wished he would have known when he retired, and made it his life's mission to share this knowledge with all his military brothers and sisters.

Warrior Wealth Group is now poised to help thousands of military personnel and their families and friends gain financial independence and ensure they are taken care of as they sunset into their golden years.
