Embed a CITK Calendar

# Embed a CITK Calendar

1. Go to "Calendars" > "Calendar Settings"
2. For the specific calendar you'd like to embed, click the "three dots" icon and select "Share"
3. In the pop-up modal, select the "Embed Code" tab
4. Click "Copy"
5. Past the embed code in a custom code element on another website as desired.

Note: If you are looking to embed a HighLevel Calendar in a funnel or website page in HighLevel, you can use the Calendar element in the page editor.
